Dear President Kouchi, Speaker Souki, and Members of the Legislature:

This is to inform you that on July 13, 2015, the following bill was signed into law:

HB206 HD2 SD1 CD1

RELATING TO HAWAIIAN PLANTS ACT 233 (15)

Sincerely,

Governor, State of Hawai'i

Approved by the Governor

HOUSE OF REPRESENTATIVES
TWENTY-EIGHTH LEGISLATURE, 2015
STATE OF HAWAII

ORIGINAL

ACT 233 H.B. NO.

H.D. 2 S.D. 1 C.D. 1

A BILL FOR AN ACT

RELATING TO HAWAIIAN PLANTS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

- 1 SECTION 1. The legislature finds that the use of Hawaiian
- 2 plants in landscaping is fundamental to preserving and fostering
- 3 a Hawaiian sense of place in our neighborhoods and communities.
- 4 Historically, each island, moku, and ahupua'a supported varied
- 5 and diverse Hawaiian plant life. The connections between
- 6 certain areas and certain plants hold cultural significance and
- 7 reflect an ecological balance achieved through long-term
- 8 adaptation to specific local environments.
- 9 The relatively recent influx of non-native plant species
- 10 and invasive plant species has transformed Hawai'i's urban and
- 11 natural environment. Some invasive plants have displaced and
- 12 endangered Hawai'i's native plants and animals. Notably, state
- 13 landscaping projects have continued to utilize and propagate
- 14 some of these more recently introduced plants, notwithstanding
- 15 the importance of Hawaiian plants to biodiversity, ecological
- 16 stability, and a cultural sense of place.

H.B. NO. 206 H.D. 2 S.D. 1

1	Accordingly, the legislature finds that publicly funded
2	landscaping should embody the cultural and ecological heritage
3	of the place in which the landscaping is located, through the
4	use of Hawaiian plants associated with each project area. The
5	legislature further finds that a place-based approach to
6	landscaping on the local level is important and desirable for
7	cultural preservation, biodiversity, biosecurity, and ecosystem
8	management.
9	The purpose of this Act is to amend the state public
10	procurement code to require that all publicly funded landscaping
11	projects include a minimum percentage of Hawaiian plants, in
12	order to contribute to a Hawaiian sense of place, to reduce the
13	use of non-native invasive plant species, and to support the
14	preservation of Hawai'i's cultural and ecological heritage.
15	SECTION 2. Section 103D-408, Hawaii Revised Statutes, is
16	amended to read as follows:
