QUESTIONS AND ANSWERS

1. On page 15 of the IFB, it mentions installation. Do you require installation of the signs?

No, we are not requiring installation at this time. We will procure services for installation separately in the future. We just require that all the security screws are included in the delivery of the signs.

2. Can you clarify what E-panel means? Is there a specific type of material that we are required to use?

The type of material we are looking for is one that is resistant to weathering from the sun and rain over a long-term use that is similar to e-panel or dibond signs.

3. Will OHA be providing the artwork for the signs?

Yes, we will be providing the digital files and it can be provided through Dropbox.
