IV. UNFINISHED BUSINESS

A. 2020 OHA Legislative Package Updates – Matrix 1†**

Chair Waihe'e turns it over to Ka Pouhana Sylvia Hussey.

Ka Pouhana Hussey calls on Public Policy Manager Jocelyn Doane to present.

Public Policy Manager Doane: Aloha Trustees, so our package is doing decently; I'm pretty-excited. OHA-1 has not got a hearing yet. As you can see, OHA-1 has a lot of referrals, so by next week we'll start talking about the calendar and as it relates, for our bills moving. As a reminder OHA-1 is the bill that would require that four-out-of-nine and four-out-of-seven DLNR and Land Use Commission members come from names from OHA and then it would also urge those required to attend the Native Hawaiian Law Training course, to do so.

OHA-2 has received a hearing in the Senate which we're super-excited about. That is tomorrow; you should have received a calendar invite for that hearing.

OHA-3, which came out of the Moloka'i meeting, it is related to creating a new violation for violating the Historic Preservation Law if builders or developers don't get the requisite permit from the County in advance. Any permit, but particularly, we are worried about the County permit. This bill did get a hearing in the House, it will be heard this morning.

OHA-4 is our resolutions. We're not worried about them getting a hearing yet, because we have a lot of time.

OHA-5 had a hearing in the Senate yesterday. This is related to providing liability waivers for landowners who voluntarily allow practitioners to access their property to exercise their constitutionally protected traditional and customary rights. This bill moved out of Hawaiian Affairs in the Senate. Thank you, Trustees Lee and Akaka, for coming. I just realized that I didn't acknowledge you guys yesterday, but I'll be sure to do that the next time you're at the hearings. The House version has a hearing today as well, so that's why Keola and Wayne are not with us; they're at that hearing.

Our CIP bills both got hearings as well; they're both on Friday. The House bill will be heard in the morning and then the Senate version will be heard in the afternoon. The House bill 9:00 a.m. Water and Land meeting is quite extensive. You should have a calendar invite for that.

That's the update for our package.

Chair Waihe'e asks if there are any questions on the OHA Legislative Package.

There are none.

V. NEW BUSINESS

A. 2020 OHA Legislative Positioning – Matrix 2†**

Chair Waihe'e turns it back over to Ka Pouhana Sylvia Hussey.

Ka Pouhana Hussey turns it over to Public Policy Manager Jocelyn Doane to present.

Public Policy Manager Doane: Ok, as is always the case, we have some changes that we need to recommend to the matrix. The first three are bills that are not on the matrix yet, so I will not be referring you to a page number.

HB2011 – It would establish the Governor's Coordinator on Native Hawaiian Advancement to be appointed by the Governor and confirmed by the Senate. It makes an appropriation as well. Some of the language for the responsibilities of this office or person appear to overlap with some of our *constitutional* and *statutory* responsibilities. We do think that having somebody in the Administration coordinating with the different agencies on things to help the Governor come up with one position might be helpful.

A perfect example of this is on the Public Land Trust bills. We saw different agencies take totally different policy positions; one inconsistent with the practice now, but two different from each other. For an issue like the Public Land Trust revenues and what revenues are going to be subject to OHA's pro-rata share it would be quite helpful to have some coordination. They've been able to accomplish this in the past without a specific Governor coordinator on Native Hawaiian Advancement, but we would recommend a position of COMMENT and let them know that we think it's great if there's some coordination amongst the agencies and remind them what our actual responsibilities are.

SB2076 – You'll see a theme this year, there are a bunch of different bills being proposed to change the way Historic Preservation is reviewed. This is a bill that we're not Opposing, there are five other ones that we're recommending Oppose on. We are recommending a position of COMMENT on this bill. It proposes to allow SHPD to delegate its Historic Preservation Review to the County if the County establishes an ordinance to govern the review process. They hire a qualified archaeologist that meets SHPD standards. In short, qualified professional staff do not create a conflict of interest; they provide for notification that's consistent with SHPD's standards.

There's also an MOU between the County and SHPD memorializing that delegation and if the County establishes sufficient-internal organizational controls. In speaking to our compliance staff; I think the thought is that hypothetically, this could work and could ease SHPD's workload, but it could take years to meet all the criteria.

The good news is, that this is one of those bills that is not just about the delegation and we'll see those in a minute. This is the bill that clearly contemplates the needs that the County would need to have to adequately do a Historic Preservation review. Our Comments would point that out, but also suggest that perhaps the County should hire a professional archaeology staff first; to help with what really needs to go to SHPD, and what doesn't.

SB2387 – This measure would appropriate money to DHHL and OHA as mandated by the Constitution and HRS §10-13.5. Of course, we think this is a great idea, so we're recommending a position of SUPPORT. It's specifically for both funds. The problem is that there is political will to move this bill. We're going to be making a recommendation for them to find a different vehicle. Currently, the title probably would not allow them to give an appropriation to OHA. This bill has a hearing this week and it'll be something that we will bring up at the hearing.

The next two bills are changes in position to what is on the matrix. The first one is on Page 21, Item 113 - SB2249; Related to an Archaeological Violation. It says Support with Amendments but we're now recommending SUPPORT instead. The bill proposes to create a new Civil and Administrative Violation to any person who either conducts archaeological monitoring prior to approval of an archaeological monitoring plan, fails to carry out the terms of an archaeological monitoring plan approved by SHPD, violates any term of a preservation plan approved by SHPD or carries out data recovery activity without an approved data recovery plan, or fails to carry out mitigation commitments. So again, this would be a violation against an archaeologist who is not conforming with SHPD-approved processes and plans.

We originally thought to make a recommendation of 'Support with Amendments' because we had some thoughts to potentially improve one of the violation points, but then as we were writing the testimony, we decided that we could SUPPORT it as is.

The next one is on Page 24, Item 124 – SB2417; it says Monitor on the matrix, but we're now recommending a position of OPPOSE.

Trustee Lee: This is the companion to the House bill I asked you about yesterday; HB2212.

Public Policy Manager Doane: Yes, maybe I'll reserve my comments for when we get to the companion bill. Basically, this would amend DLNR's hunting chapter to recognize Game Mammals, Game Birds and Hunting and Fishing Industries for food security. It would require all State Departments and Offices to amend their rules and policies to integrate hunting and fishing industries in their food security plans. We contemplated whether-or-not to say anything on this bill, which is why the companion bill says Oppose instead of Monitor.

I would say hunting and obviously fishing is a Traditional and Customary practice, but there's balance with the impacts of hunting to other Traditional and Customary practices. So, to have this broad statement about how hunting should be protected at all costs, runs counter to the necessary balance that the State needs to take when looking at an area holistically. As we know, Game Mammals destroy native habitat, impact watershed functions, and can have substantial impacts on reefs with erosion issues – so of course Hunting and Fishing has a place in Hawai'i when it's appropriate. Therefore, we don't want to undermine other Public Trust responsibilities – which is why we're recommending a position of OPPOSE on that.

Those are the only bills that we needed to add or fix, so we're going to start from the beginning again and I will specifically go over the **bills that name OHA** before we go over the others.

Page 2, Item 9 – HB1763; this is a bill that would prohibit OHA Trustees, the CEO, all Legislators, and all High-Ranking State Officials from serving as a lobbyist or representing a client on legislative action before the legislature or administrative rulemaking actions before any agency. This is in the Ethics Commission Package. It doesn't target OHA specifically. This is something that we're named in, along with a bunch of other different State decision-makers and officials. We're recommending a position of MONITOR.

Page 7, Item 37 – HB2018; this is a Native Hawaiian Law Training Course bill. It's almost exact to the bill that then Chair Ing had introduced; which is very similar to a bill in our package. It would expand the parties that would have to take the training course. We are recommending SUPPORT WITH AMENDMENTS because this bill includes, as it did before, the Judiciary in it. First of all, the Judiciary has a decision-making authority over actions before all of the people who would be in the room. We don't think it's a good idea to have them trained together and then it would be costly if we had to do a whole separate training just for them. So, we're recommending the Judges come out of the bill. It would also require State Legislators to take the course, which I truly think is a good idea, but I think we should let the legislators decide that.

Page 14, Item 75 – HB 2468; this bill would require that 50% of all general funds appropriated annually to OHA be distributed directly to beneficiaries. First, we're not clear that this is appropriate. Our appropriation bills require those funds to be spent in certain ways and we do that. So, binding future legislative bodies for appropriations is generally something that you cannot do.

Secondly, as you know, about half of our general-funds-appropriation go directly to Community Service programs, they don't go to beneficiaries in the form of a check, however. Services are provided through the Native Hawaiian Legal Corporation, Charter School Programs, and different educational and after-school programs. So, we are concerned about the language in here not necessarily allowing us to grant the best applicants. We're recommending COMMENT and will provide those points as comments.

Page 16, Item 83 – HB2585; we are recommending SUPPORT WITH AMENDMENTS on this bill. This measure will be heard on Friday I think; it would do two things. It would require all Grant contracts to be approved by the Board, which the Board already voted to adopt a similar approval process effective as of FY22. We would ask them to remove that because we've already done some of this and we want to make sure our trustees have their authority to determine that these processes are respected. As it relates to the Public Land Trust negotiating committee, this is very similar language to bills that we've either introduced or supported in the past.

Page 17, Item 84 – HB2586; this is one of the bills that we sent over at the request of certain legislators, with regards to Residential Entitlement measures that OHA has supported in the past. The bill as introduced would be exactly like a bill we've supported in the past and technically helped draft. It would allow OHA, and no other entity but OHA, to apply for a project or a proposal to HCDA that includes a residential component.

Trustee Hulu Lindsey: *Who introduced it?*

Public Policy Manager Doane: This was introduced by Representative Holt. So, consistent with our past positions and appreciative of keeping these discussions alive, we are recommending a position of SUPPORT.

Page 23, Item 120 – SB2388; there are a few election bills that were introduced again this session. This bill is related to Public Funding, it's very similar to a measure that was introduced last year. It would increase by a blank amount funding assistance for OHA candidates to be on par with legislators, councilmembers, and prosecuting attorneys. If this bill gets a hearing, we would testify to recognize that an increase in the Public Funding amount is a good policy, but also note as we've done in the past the discrepancy between this Statewide election and other Statewide elections. Again, the amount is blank, so we do not know what the amount would be. So, our recommendation is COMMENT.

Page 23, Item 122 – SB2410; this is very similar to a bill we had in our package last year or the year before, it would codify the Public Land Trust reporting requirements. We're recommending a position of SUPPORT on that.

Page 23, Item 123 – SB2414; this is the OHA Election Randomization bill. It would randomize names within each seat and apparently, would be different in different precincts. Consistent with our past positions, we're recommending a position of MONITOR.

Page 32, Item 170 – SB3178; this would allow the Board to remove the Administrator by a 50% vote rather than a 2/3 vote. If the trustees wanted to do this, they could change their own by-laws and other governing policies to do that. If this gets a hearing, we recommend a position of COMMENT. We would say that this is not something the Board is asking the Legislature to do and note that if the Trustees wanted to do that, they certainly could.

Trustee Hulu Lindsey: Just curious, *who introduced this bill?*

Trustee Lee: Kidani. There were a bunch of introducers.

Public Policy Manager Doane: I don't know that this is something that the Board has asked for, which is what we would say if it got a hearing.

If there are no more questions, we're going back through the matrix to discuss **the other high profile and/or opposed bills and/or bills that we think you would be particularly interested in.**

Page 3, Item 11 – HB1778; this is another delegation of the Historic Preservation bill. There are about five of these bills in your matrix and they're all very similar. It would delegate Historic Preservation review to a qualified archaeologist to the County if the County or Applicant requests it; or if SHPD and the County come to an agreement. You'll note that all the conditions that are in place in that other measure, and in which we are not opposing, are not here. So, we are recommending a position of OPPOSE because of that and because it would provide automatic approvals if SHPD doesn't review the project within 30 days.

Page 4, Item 18 – HB1875; this is the other Governor's coordinator bill. This bill would create the Governor's Coordinator and we're recommending a position of SUPPORT for reasons I brought up earlier. It doesn't give them extensive responsibilities, but I think one of the things that I want to reiterate is if the Governor wants to create a person to do this, they don't need legislation. One; we've seen it done in the past when Governor Waihe'e was in office. Then two; the Governor's Coordinator on Homelessness is not in a statute either. They just did it because they thought it was a priority.

Page 4, Item 22 – HB1901; as the trustees may recall last year, in part because of the amazing advocacy by our staff and our colleagues - the Oversight Commission was passed. We were able to name one of the members who ascended and became the Chair - who is a tireless advocate for reforming the Criminal Justice System. There was a clerical area in the bill last year in terms of what some of the commission's responsibilities are. What this bill would do is clarify the mandate of the Commission to work with PSD to ensure that inmates are provided the programming that's assigned to them by the reentry system. Then they can be ready for release hopefully by the minimum term, when appropriate. We are recommending SUPPORT.

Page 5, Item 25 – HB1921; this bill also has a Senate Companion, SB2373. This bill should look familiar, it's a bill that we basically Opposed the last two years. It would require hunters, both hunting guides and individual hunters, to obtain written permission from landowners or be subject to criminal trespass liability. We know that large landowners are not going to give permission in writing. We want to make sure that our hunters are not overly burdened. Of course, there are safety issues that need to be considered. Requiring written permission would have a chilling-effect on hunting.

Page 6, Item 28 - HB1932; it also has a companion bill SB2217. Another trend that you're going to see this session are the attempts to change the jurisdiction and responsibility of the Land Use Commission (LUC). Currently, the LUC has the jurisdiction over district boundary amendments for all conservation lands, all important agricultural lands and all district boundary amendments for agricultural lands and rural lands larger than 15 acres; and everything else goes to the County. This measure would change that 15 acres to 100 acres which is massive when 50% of the Housing units on this project would be for 140% Area Median Income (AMI) or lower – we're recommending a position of OPPOSE.

Page 7, Item 34 – HB1972; this might look like a familiar measure as well. It's related to the release of terminally ill, seriously debilitating conditioned, too ill to participate in rehabilitation or certain diseases for incarcerated folks to get early medical release. The idea is that the jails are experiencing exponential costs, it's inhumane to keep these people in jail where they can't get the kind of treatment that they require. We are recommending a position of SUPPORT. This bill passed last year, but for some reason the Governor vetoed it.

Page 9, Item 48 – HB2191; you're also going to see during this session a lot of long-term lease bills. This is almost identical to a bill we opposed last year, it would side-step current lease restrictions in place by authorizing BLNR to extend commercial, industrial, resort or government leases for another 40 years, which means that we could be talking about a maximum of 105 years. These don't apply to UH leases, which they specifically put in there or leases that have been sold in the last 10 years, or certain DHHL leases. We're recommending a position of OPPOSE.

Page 10, Item 54 – HB2212; this is the Game Mammal measure that we talked about earlier. We are recommending a position of OPPOSE.

Page 10, Item 56 – HB2260; this is a bill that would exempt developments of qualifying affordable housing projects from both County and LUC oversight. This goes even farther than the last bill we talked about. They wouldn't even have to go through the County process which is not as good as the State process for us because the State is thinking about their Public Trust responsibilities. This is regardless of acreage, regardless if the lands are conservation or important agricultural lands. The discussion about what a qualified affordable housing project would be references again the 140% AMI or lower and merely requires a certification from the Counties. There would be no process or opportunity for mitigation or conditions to ensure that things that our beneficiaries care about is addressed and that is why we are recommending OPPOSE.

Page 11, Item 60 – HB2357; this is related to how the DLNR can give out water licenses. So, this is very much related to the issue that came up last year and the long-term lease that A&B and/or Mahi Pono is going to seek for East Maui. We're delightedly surprised at the bill that was introduced, so we're recommending a position of COMMENT. Basically, as you may recall, the issue of issuing long term water licenses or leases which is what they want to start calling it if the bill passes, has been very controversial.

They're trying to address primarily three things; how the evaluation is determined, whether-or-not there's a public auction process or the competitive nature of it and the lease length – they're recommending a lease length of thirty years which is shorter than we thought it would be.

The reason why we're not opposing it - charging fair market value as it's currently written for water can be impractical. Nobody really does water lease evaluation appraisals because it's not really a thing yet. Often times there's only one entity that could apply for it. For East Maui as an example, the only people that would make sense to apply for it would either be the State itself because they have the right to use the systems that are there, A&B or Mahi Pono, and maybe the Counties. In the last couple of years in dealing with these issues, we've also recognized that there are some smaller users that have concerns about the regular auction process because they could be outbid. So, to mitigate some of the remaining concerns about water licenses, we are recommending a position of COMMENT. Our Comments would request licenses be limited for even shorter than thirty years. We've discussed 10-15 years due to climate change models. What's available today and what will be available in thirty years will be dramatically different.

Page 12, Item 61 – HB2358; again, this is a 99-year lease bill that would allow DLNR to amend and extend pasture leases for up to 99 years, and issue new pasture leases by direct negotiation up to 65 years. As we understand to what is happening, the existing and potential lessees for pasture lands are wanting DLNR to transfer all those lands and leases to be managed by the Department of Agriculture (DOA) who has much more flexibility in how they lease their lands. I think because DLNR is concerned about their Public Trust thoughts and analysis that they do when they issue these leases. They want more flexibility to issue their leases so that the DOA doesn't do it where each agency does not necessarily care about the things the other agency cares about. We're recommending a position of OPPOSE. This is consistent with all our previous positions on 99-year leases.

Page 12, Item 63 – HB2386; I am bummed that Trustee Ahuna isn't here. This bill is being pushed by an individual who lives on Kaua'i who has attempted to get an easement over kuleana lands and lo'i lands in Waioli (which is where we visited on Kaua'i), as well as on State property, so that he can build his house on these lands. This bill would explicitly amend HRS §7-1; it's section 7 of the Kuleana Act - which was passed in 1850. So, this law has not been changed for 170 years. We are recommending a position of OPPOSE.

Page 13, Item 71 – HB2440; this is the ALOHA Homes bill that we are recommending a position of COMMENT on. There are a lot of housing bills and most of them are 'Oppose' but this one is COMMENT so I can come back if you want to know why.

Page 15, Item 77 – HB2512; Relating to Archaeological Review, basically the same reason why we're recommending a position of OPPOSE as the last time.

Page 16, Item 80 – HB2542; this is the leadership Housing bill that we're recommending a position of OPPOSE on.

Page 17, Item 85 – HB2606; these are environmental review exemptions for 201H projects. We did have a successful hearing yesterday, where they removed the environmental review exemption from the bill in the Senate. Our position is OPPOSE.

Page 17, Item 88 – HB2646; we're recommending a position of OPPOSE. This would allow water banking supposedly for safety concerns, but we don't think that is necessary and could open the door to other water banking.

Page 17, Item 89 – HB2663; again, SHPD delegation; there are five of them. We OPPOSE.

Page 17, Item 90 – HB2677; this is a water revocable permit bill. This would allow for excessive revocable permits for water. It's our understanding that leadership is not prioritizing this bill, so hopefully it doesn't get a hearing. We would OPPOSE it if it does.

Page 19, Item 98 - SB2043; this is an Affordable Housing bill with 99-year leases. We're recommending COMMENT.

Page 19, Item 99 – SB2053; again, similar environmental review exemptions for 201H projects. We OPPOSE.

Page 21, Item 110 – SB2212; it would prohibit State or County inclusionary zoning requirements which we have supported before. Inclusionary zoning is basically a policy that requires developers to set aside a portion of their housing to be sold out below market rates. We are recommending OPPOSE.

The last two measures are on page 37, Items 194 and 195 – GM506 and GM507; these are the GMs for DHHL. The hearing has already passed as you know, but the decision-making is tomorrow. I'm recommending a position of MONITOR, we thought that if we were going to Monitor one then we needed to Monitor both. The Board has supported William Aila in the past, however there has been substantial community opposition submitted; including by many of the association presidents. Some of it might be personal issues. So, we didn't feel that we were in a place to say that he's been doing the job that he needs to do.

I'm not sure – *Do you as Trustees have differing opinions on this?*

Ok, the last things I wanted to talk about is the different 99-year lease bills for Housing. The ones that I'll point out and that have companions, just so you know, are HB2440/SB2946 – ALOHA Homes Bill, HB2542/SB3104 – the Leadership Housing Bill, and SB2043.

The reason why we're not recommending a position of Oppose for the ALOHA HOMES bill and SB2043 is for a few reasons. We've been successful in the past in getting Senator Chang specifically with the Housing Chair in the Senate to include language that would require transfer of units for partnerships with OHA and/or DHHL to make sure our beneficiaries specifically benefit. His model does not have an income requirement which means that potentially rich people could buy them.

However, there's a couple things that this bill does differently than the other bills; it's leasing 99-year leases to individuals – the leadership bill envisions 99-year leases to developers. The criteria around the purchasers and who can qualify for the units look quite different. There are no income restrictions but the price 80% AMI (Area Median Income) or 300,000 which is the 80% AMI from last year – so the price is going to be more affordable. They cannot own other property. If they own other property and then they want to buy one they would have to get rid of their other property within 60 days. You would have to be an owner-occupant, which means you must live on the property, and you cannot advertise it for rent.

The other thing is the State will retain 75% of the equity when the sale comes, so this is not an equity building purchase program. There are, of course in most of these bills, still issues related to ensuring that any dispositions by HHFDC are handled consistently. So, they've been clearly receptive to our recommendations on that. All these bills would envision significant use of ceded lands. 99-year leases are not usually something OHA likes. We usually oppose them all, but we do have exceptions when they incorporate specific benefits to Hawaiians. So, we are recommending COMMENT and will be including what I mentioned in our comments.

Page 16, Item 80 - HB2542 and its companion SB3104 does a bunch of things that we wanted to make sure we paid attention to; these are the Leadership Housing Bills. This would envision HFDC leasing lands to developers for 99 years as opposed to individual buyers. The developer would only have to reserve half of those units to 140% AMI or below. The other half they could create market rate units on; so, the developers will want to maximize their profits. This is particularly concerning because 140%AMIs are not meeting the needs of our beneficiaries and then the other half they could monetize for other things. The model that they're using are reserved housing models and inclusionary zoning models that apply to private lands. Yet, when we're talking about the use of State lands - it must be clear about how we're going to specifically benefit the residence.

This bill doesn't have any other criteria like the ALOHA Homes bill. It doesn't limit who can purchase, or say that only residents can buy. It doesn't say you have to be owner-occupant, or how long the property must maintain its affordability, and who gets the equity. So, if it gets a hearing those are the kinds of suggestions we would make, we wouldn't just OPPOSE the bill, we would offer suggestions for them to consider.

Trustee Akina: Thank you for your presentation. I have not yet read HB1932 which you're recommending Opposition on. That's the bill that would reclassify certain parcels of 1,500 acres for rural, agricultural, or urban. So, they could become residential and 50% would have to be set aside for persons at 140% AMI or below. I'm just trying to do the economics in my head. I would think that there are many parcels out there that are underdeveloped. This would result in an increase in supply of housing which ultimately could be a benefit to our beneficiaries. I was wondering if there are any projections on this and what in-particular is harmful to our beneficiaries on this.

Public Policy Manager Doane: Good question. There's no data to support the assertion that the Land Use Commission processes are holding development of affordable housing. The data suggests otherwise.

Trustee Akina: Right, I acknowledge that. When we're talking about affordable housing, the Land Use Commission may not be holding that up. *Could it be that reclassifying land for development could increase the overall inventory of housing, thus affecting the overall pricing?*

Public Policy Manager Doane: Hypothetically, reclassifying a bunch of land including really, large 100-acre parcels could result in the development of housing which might bring the housing prices down. The data that we have, suggests that the LUC process, which is specifically looking to be changed, is not what is causing the hold up. There are 23,000 units that the LUC has already approved that have not been built by the large landowners. For affordable housing projects there are already expedited processes, including for the scenarios that this bill envisions. So to completely eliminate that process which is the only way that conditions are placed on a project so that they don't just completely annihilate resources that our practitioners rely on or consider the protection of streams and water availability for these projects; that only happens really at the LUC and that's where we see the conditions placed on projects.

Trustee Hulu Lindsey: In a previous life, I implemented the County's codes relative to this very subject matter and I think this opposition is very positive because there's so many loopholes that are created by new laws and the LUC is just another step that we can be assured that we're protecting our lands properly. If you just leave it up to the County anything could happen. It was good that we had a minimum number of acres that were exempted; anything about that is critical because it's going to affect the community. I'm glad to hear that there are so many approvals that aren't built yet, so there's no reason for this bill. Thank you.

Public Policy Manager Doane: That concludes my presentation, Thank you.

VI. COMMUNITY CONCERNS*

KAMUELA KALAI: Aloha Mai, I wanted to update everybody on what's happening at Kawaiaha'o. The most current number that we have of kūpuna who have been removed from their graves is 714; we still suspect that there may be more. We have several families who have come forward to be recognized as lineal descendants including myself and my 'ohana, and we have been meeting as families. Thank you to OHA for providing us with meeting space.

We have created our own burial treatment plan and have submitted it for review. We're waiting for SHPD to accept it and are waiting on a couple of other steps that need to occur. We want to make sure that we mālama the kūpuna and get them ready for reburial. We will be asking for kōkua with this because we are going to need help. After they excavated the kūpuna they removed over 14 million pounds of dirt according to their records and trucked it off-site; we've been asking where it went because it contains our kupuna. We asked where the lepo is and were told they don't know – except when we brought up the fact that one of us followed the truck and it ended up at a Pearl City Base yard - then they admitted that they sold it. That is millions of pounds of dirt that contains our kupuna and we don't know where they are.

In order to rebury our kupuna we are going to have to purchase lepo and we have no idea what that's going to cost. We are going to be gathering hala and are asking for help from people we know that weave so that we can weave baskets and mats for kupuna. We're going to try to get kapa made for them as well and we will need a place to take them to, so we will be looking for a hale. I just wanted to let you know that this is where we're at. We're trying to get the church to comply and are getting a budget together which includes travel for neighbor island families who can't afford to come over themselves. Once the process is complete, we'll be back to ask for help and we would appreciate if someone from OHA could attend an OIBC meeting so you would see first-hand what is happening. Mahalo.
