**I. Action Item:**

To approve and authorize the disbursement of \$3,000,000 from the Fiscal Year 2020 Core Operating Budget (Object Code 56530) and \$3,000,000 from the Fiscal Year 2021 Core Operating Budget (Object Code 56530) to fund the twenty-four (24) Fiscal Biennium 2018-2019 Community Grant recommendations listed on **Attachment A – OHA FB 2020-21 Community Grant Recommendations Matrix**.

**II. Issues:**

Whether or not the Board of Trustees (BOT) should approve and authorize the disbursement of \$3,000,000 from the Fiscal Year 2020 Core Operating Budget (Object Code 56530) and \$3,000,000 from the Fiscal Year 2021 Core Operating Budget (Object Code 56530) to fund the twenty-four (24) Fiscal Biennium 2020-2021 Community Grant recommendations as listed on **Attachment A – OHA FB 2020-2021 Community Grant Recommendations Matrix**.

**III. Discussion:**

On September 27, 2018, the BOT approved **RM #18-09 - OHA's Preliminary FB 2020/2021 General Funds and Community Grants Budgets, included as Attachment B**, which authorized preliminary funding of \$3,700,000 for FY 2020 and \$3,700,000 for FY 2021 for OHA's Community Grant Biennium Budget (see Table 1 below).

Based on RM #18-09, the Grants Program issued the following OHA FB 2020-2021 Community Grants solicitations on November 19, 2018:

**Table 1 – FB 2020-2021 Community Grants Budget**

Focus Area	FY 2020 Funding	FY 2021 Funding	Total Biennium Funding
20-01: Culture	\$ 500,000	\$ 500,000	\$ 1,000,000
20-02: Health	500,000	500,000	1,000,000
20-03: Education	500,000	500,000	1,000,000

OHA’s Community Grants engage the Hawaiian community and fund community programs that address each of OHA’s strategic focus areas of housing, income, health, education, culture, and land. Community Grants are provided to non-profit organizations to provide vital services to our beneficiaries.

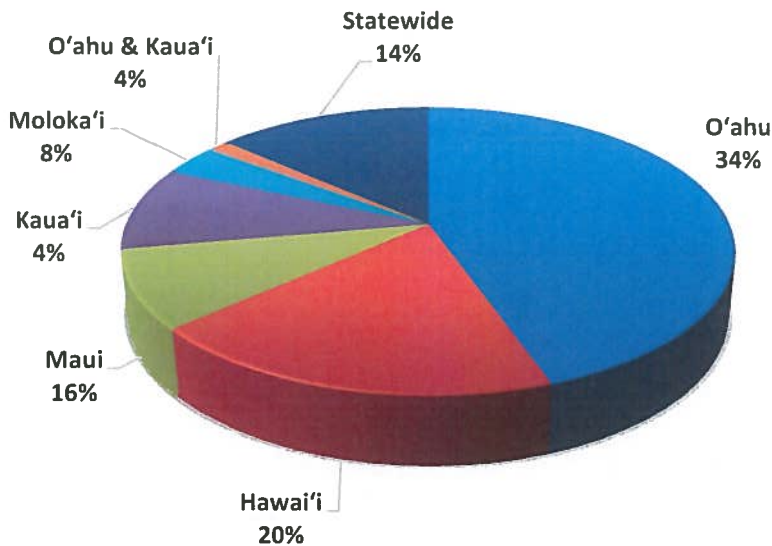

The Community Grants process is outlined in **Attachment C** and the timeline is detailed in Table 2 below:

**Table 2 – FB 2020-2021 Community Grants Schedule**

Community Grants Process	Timeline
Public notice and availability of online application	November 19, 2018
Solicitation orientation workshops- conducted 10 sessions (in-person, via webconference and Skype)	November 28 – December 14, 2018
Online application submittal deadline	January 4, 2019
Application evaluation, selection and recommendation	January – May 2019
Approval by the BOT and notice of award	May 2019
Grant negotiation and contracting	June – July 2019
Contract effective date	August 2019

A total of sixty-six (66) applications were received of which fifty (50) applications were eligible for review and sixteen (16) were deemed ineligible. A list of eligible and ineligible applications are provided on **Attachment D - Eligible/Ineligible Community Grants Applications**. The percentage of eligible applications by island is provided below:

**Percentage of Eligible Applications By Island**

Eligible proposals were scored by a committee of external grant reviewers. Each application was scored on the following areas: organizational capacity, experience, community need, scope of services, service delivery, and budget. An evaluation was also conducted by Grants Program staff to align application budgets with the solicitation requirements, proposals and reviewer recommendations.

This action seeks BOT consideration for approval to fund the twenty-four (24) Community Grant Recommendations provided on **Attachment A – OHA FB 2020-2021 Community Grant Recommendations Matrix**.

An individual recommendation summary for each of the 24 grant recommendations including a list of board members for each organization is provided as **Attachment E – Individual Recommendation Summary Sheets**.

Per the recommendations, the funding distribution by island is provided as follows:

### Community Grant Funds Distributed By Island

**IV. Funding Source:**

Preliminary funding for these recommendations was authorized on September 27, 2018 via BOT approval of RM #18-09 - OHA’s Preliminary Fiscal Biennium 2020/2021 General Funds and Community Grants Budgets for FB 2019-2020 and 2020-2021 as detailed in Table 1 on page 2 of this Action Item and included as **Attachment B - RM #18-09 - OHA’s Preliminary FB 2020/2021 General Funds and Community Grants Budgets.**

General Fund appropriations are determined by the Hawaii State Legislature during each biennium. As part of its annual budget, the Office of Hawaiian Affairs (OHA) receives general funds from the State of Hawai‘i, which is appropriated through the State Legislature. OHA has received state general funds since 1981 for a portion of its personnel and operating cost and to provide funding for services to beneficiaries.

On April 30, 2019, the State of Hawaii’s Legislature via Joint House/Senate discussions agreed to provide OHA with the following General Fund Appropriations as stated in H.B. No. 172 H.D. 1 S.D. 2 C.D. 1. The Appropriations provided \$615,000 per fiscal year to be used for Education; \$250,000 will be allocated to Community Grants Education and \$365,000 will be allocated to Charter Schools. The Appropriations did not include the additional \$500,000 per fiscal year for Community Grants Housing that OHA requested. Thus, our recommendation in this Action Item is based on the Community Grants funding summary in Table 3 below.

***Table 3 – Funding Sources (including State of Hawaii General Fund Appropriations) for OHA’s FB 20/21 Community Grants Program as of April 30, 2019)***

## **I. Proposed Action**

The Committee on Resource Management approves and recommends that the Board of Trustees approve:

- (1) OHA's preliminary general funds budget of \$3,980,579 per fiscal year to fulfill its requirement of submitting OHA's FB budget bill to the State Legislature in December 2018 for the FY 2019-2020 and FY 2020-2021 biennium and
- (2) OHA's preliminary community grants program budget of up to \$3,700,000 per fiscal year for the FY 2019-2020 and FY 2020-2021 biennium.

## **II. Issue**

Whether or not the Board of Trustees should approve:

- (1) OHA's preliminary general funds budget of \$3,980,579 per fiscal year to fulfill its requirement of submitting OHA's FB budget bill to the State Legislature in December 2018 for the FY 2019-2020 and FY 2020-2021 biennium and
- (2) OHA's preliminary community grants program budget of up to \$3,700,000 per fiscal year for the FY 2019-2020 and FY 2020-2021 biennium.

## **III. Background**

The State Legislature determines General Fund appropriations during each Biennium. As part of its annual budget, the Office of Hawaiian Affairs (OHA) receives general funds from the State of Hawai'i, which is appropriated through the State Legislature. Since 1981, OHA has received state general funds for a portion of its personnel and operating cost, and to provide services to beneficiaries in the three major areas of multi-services assistance, legal assistance, and educational enrichment.

### **OHA's Sources of Funding**

An *appropriation* is an authorization granted by the OHA Board of Trustees (BOT) or Hawai'i State Legislature permitting the agency, within established fiscal and budgetary controls, to incur obligations and to make expenditures for specific purposes. An *appropriation* is usually limited in its amount and the period of time during which it can be expended. The sources of funding available for spending through OHA's Core Operating Budget include the following *appropriations* detailed in **Table 1** below:

**Table 1: Sources of Funding**

Type	Description	Appropriation Number
<b>Core Operating Budget</b>	General Fund appropriations drawn from the State of Hawai'i	100
	Public Land Trust Revenues (PLT) received annually from various State Agencies conducting business on PLT lands	901
	Matching Fund appropriations by the State of Hawai'i but drawn on the Native Hawaiian Trust Fund (NHTF)	910
	A portion of the NHTF which includes revenues received primarily from past-due settlements dividend and interest earnings received thereon, plus ten (10) percent of gross revenues generated from OHA-owned Kaka'ako Makai parcels allocated for grants, and 30% of net revenue allocated for OHA's Legacy Property Management (which will terminate at the end of FY 2019).	930

A summary of general fund appropriation levels from FY 09 through FY 19 is presented in Table 2 below:

**Table 2: General Fund Appropriation Levels from FY 09 through FY 19**

Summary	FY 09	FY 10 / FY 11	FY 12 / FY 13	FY 14	FY 15	FY 16 / FY 17	FY 18 / FY 19

#### IV. Discussion

The OHA Biennium budget is prepared every two years, for the ensuing two years. Historically, the entire operating budget including general funds, trust funds, federal funds, special funds and other funds was presented to the BOT for review and approval during the months immediately preceding the opening of the Biennium legislative session. This Action Item includes discussion and seeks BOT approval relating to (1) OHA's preliminary general funds budget of \$3,980,579 per fiscal year to fulfill its requirement of submitting OHA's Fiscal Biennium budget bill to the State Legislature in December 2018 for the FY 2019-2020 and FY 2020-2021 biennium and (2) OHA's preliminary community grants program budget of up to \$3,700,000 per fiscal year for FY 2019-2020 and FY 2020-2021 biennium to accommodate a grant solicitation release date in September 2018.

The proposed general funds and preliminary community grants program budget requests for the FY 2019-2020 and FY 2020-2021 biennium, covers the periods from July 1, 2019 through June 30, 2020 and July 1, 2020 through June 30, 2021; hereinafter referred to as FY 2020 and FY 2021, respectively.

## **OHA's Use of General Funds**

The primary purpose of OHA's general funds received from the State of Hawai'i is to provide support and assistance to Hawaiians in the areas of:

1. **Social services** to OHA beneficiaries to: include information and referral services, case management and counseling, establishment of individual development accounts, financial literacy training, and financial assistance. Referral services include those relating to education assistance, employment and income security, individual and family care, health needs, housing, legal services, genealogy research, business assistance, and general information.
2. **Legal services and legal representation** to OHA beneficiaries for: the assertion and defense of quiet title actions; assistance with ahupua'a and kuleana tenant rights, including rights of access and rights to water, land title assistance, including review of title and genealogy, preservation of traditional and customary practices, protection of culturally significant places, and preservation of Native Hawaiian land trust entitlements.
3. **Educational improvement programs** for Hawaiian children in grades K through 12 to: optimize learning for Hawaiian students, develop a stronger interest in learning, connect learning and education to one's Hawaiian identity, and assist students explore possible educational, career and academic goals. In order to achieve systemic change, OHA will support services to increase the percentage of Native Hawaiian students who meet or exceed math and reading standards. The resultant outcome is to reduce the continued academic achievement gap between Native Hawaiian students and non-Hawaiians in alignment with the State of Hawai'i's education standards in math and reading.
4. **Housing improvement programs** for Native Hawaiians to increase self-sufficiency by improving their capacity to own or rent a home. The overall objective is to assist Native Hawaiians who are in transitional housing and those at-risk of homelessness, and prospective homebuyers who are paying more than the US Department of Housing and Urban Development (HUD) standard housing cost (i.e., pay no more than 30 percent of household income for rent).

## Current General Funds Biennium Budget Appropriation

The current OHA Budget Bill, Act 131, SLH 2017, whose authority allotted a total of \$3,037,879 for FY 2018 and \$3,037,879 for FY 2019 included per fiscal year appropriations for (a) \$296,874 for use in OHA's operations, (b) \$ 1,067,175 for personnel, and (c) \$1,673,830 allocated specifically for four (4) of the six (6) focus areas provided above and detailed in Table 3 below:

## OHA's General Funds Biennium Budget Request for FB 2020/2021

The Office of Hawaiian Affairs has a broad purpose of fulfilling its vision and mission while creating systemic changes through the implementation of its 2010-2018 Strategic Plan. While the new Strategic Plan is being developed and during this transition period, the Office of Hawaiian Affairs may pilot new strategic results as the foundation for FB 2020/2021 funding period. It is with this *kuleana* in mind that Administration believes it necessary to request BOT consideration and approval to proceed with a general funds request to the State Legislature for the FB 2020/2021 of \$3,980,579 per fiscal year as detailed in Table 4 below:

**Table 4: Biennium Budget by Purpose to the State Legislature for the FB 2020/2021**

In summary, for OHA’s FB 2020/2021 State General Funds request, OHA will be submitting a Budget Bill for State General Funds (GF) support including the following changes:

- o **GRANTS:** Increase request for Housing. An increase of \$500,000 per fiscal year for FY 2020 and 2021, totaling \$1,000,000 for the biennium is requested.
- o **PERSONNEL:** Increase overall request for Personnel due to a projected 9.54% increase in the state fringe rate as experienced over the past biennium. An increase of \$562,130 per fiscal year for FY 2020 and 2021, totaling \$1,124,260 for the biennium is requested.

### **OHA’s FB 2018/2019 Community Grants Program**

The Community Grants Program (CGP) provides OHA the opportunity to create and implement performance-driven, culturally based services. The proposed timeline for its FY 2020 - FY 2021 Biennium CGP is detailed in **Table 6** below:

**Table 6: Proposed FB 2020/2021 Community Grants Program Timeline**

Activity	Date
Public Announcement and Issue Solicitation	November 5, 2018
On-line Application Available	November 5, 2018
Orientation Sessions	November 12-December 14, 2018
On-line Application Submission deadline	December 21, 2018

CEO Recommendation and Approval	February-March 2019
Draft Action Item to RM Committee	March 2019
RM Committee & BOT Approvals	March 2019
Notice of Findings & Decision	April-May 2019
Negotiate and Process Contract	May – June 2019
Execute FB 2018/2019 Grant Contracts	July-August, 2019

The CGP will continue to identify and initiate improvements that increase the accessibility and performance of community grants. For FB 2020/2021, the use of external Grant Reviewers will be continued. During the last CGP granting cycle, OHA implemented a grants review process wherein OHA recruited experienced professionals with subject matter expertise and qualifications to serve as Grant Reviewers. The CGP will also revise its policies and procedures to ensure that community grants are accessible to prospective grantees and are effectively monitored to ensure performance and results criteria are met.

Although OHA’s Total Operating Budgets for the FY 2020– FY 2021 Biennium will not commence development until January 2019, it is important for OHA to (A) begin solicitation for its FB 2020-2021 CGP by November 2018 and (B) prepare its case for its upcoming FB 2020-2021 General Funds Budget Bill. As described in **Table 6** above, the final biennium budget for OHA’s FB 2020-2021 CGP, along with award recommendations, is expected to be presented to OHA’s BOT for final discussion and approval no later than March 2019. Your review and consideration for this Action Item is an initial step in that process.

Therefore, Administration hereby recommends consideration to allocate to OHA’s FB 2020-2021 CGP *an initial set-aside of \$3,700,000 annually* as presented in Table 7 below:

**Table 7: Preliminary FB 2020/2021 Community Grants Budget\***

*\*Note: Administration requests that the above funding level be the maximum level allowable based upon the limitations of OHA’s current funding sources. Any solicitation issued by OHA will disclose, “...final awards for the FY 2020-FY 2021 Biennium are subject to the availability of funds.” The Budget does not include Charter School Education funds because such funds are not categorized as Community Grants.*

For the strategic priorities noted in Table 7 above, the proposed OHA Community Grants budget increases funding levels in FB 2020/2021 by \$1,000,000 over FB 2018/2019 approved funding levels (via BOT #17-07 approved on June 8, 2017). The need and type of project applications received for FB 2020/2021 as well as the determination of priority areas will influence the final allocation of funding.

**Recommended Action**

The Committee on Resource Management approves and recommends that the Board of Trustees approve:

- (1) OHA’s preliminary general funds budget of \$3,980,579 per fiscal year to fulfill its requirement of submitting OHA’s FB budget bill to the State Legislature in December 2018 for the FY 2019-2020 and FY 2020-2021 biennium and
- (2) OHA’s preliminary community grants program budget of up to \$3,700,000 per fiscal year for the FY 2019-2020 and FY 2020-2021 biennium.

**V. Alternative Actions**

- 1. Approve the recommended action.
- 2. Amend the recommended action.
- 3. Do not approve the recommended action.

**PROJECT INFORMATION**

- Waimānalo Health Center (WHC) was incorporated in 1989, saw its first patient in 1992 and became a Federally Qualified Health Center in 1994. WHC has also received accreditation (2015) through the American Association of Diabetes Educators, demonstrating our capacity to meet the applicable standards and requirements to deliver diabetes education. Waimānalo Health Center served 4,560 patients through 27,562 visits in 2017, 51.5% of whom were Native Hawaiian.
- Waimānalo Health Center is committed to providing the highest level of primary and preventive health services, with special attention to the needs of Native Hawaiians and the medically underserved, and improving the health and wellness of individuals and their `ohana regardless of their ability to pay.
- Proposed services will be integrated with the primary care visit, and therefore, patients scheduled in primary care will have access to the cultural practitioner at the time of the primary care visit. To assure patients have reasonable access to the proposed services, WHC will: a) Continue to educate staff to promote the proposed services to its patients (workflows, availability of appointment schedule, etc.); b) Advertise the services internally (referrals, warm hand-offs, prenatal and pediatric families, etc.), via the WHC website, and to specific patient populations; c) Educate the community about the availability of lomilomi massage services and la`au lapa`au through existing community venues (Waimanalo Neighborhood Board Meeting); and d) Conduct la`au lapa`au workshops open to patients and community members.

**Ulu A‘e Learning Center**

**PROJECT DESCRIPTION**

The ULU AE project delivers culture, place-based programs to elementary and middle school participants in the Ewa region during non school hours. The curriculum uses MOOLELO, HANA NOEAU and AINA stewardship to provide opportunities for keiki and opio to become proficient in native Hawaiian practices.

**PROJECT INFORMATION**

- Established in 2014, the vision of the Ulu Ae Learning Center is to have an entire community knowledgeable about its history, culture and language. Ulu Ae’s mission is to empower and enrich lives through culture and place-based programs that develop skills, build confidence and promote healthy relationships based on the values and customs of our kupuna.
- Ulu Ae runs three programs: 1) Ulu Ae’s Afterschool and Intersession culture and place-based programs for keiki and youth; 2) the Ike Kuuna Enrichment Workshop Series for families, parents and kupuna; and 3) the Puuokapolei Stewardship Program for community members, visitors and others. Ulu Ae also hosts two signature events annually: Makahiki ma Kapolei and Kapuuola Hula Festival.
- The Ulu Ae Project is an afterschool/intersession program which provides 28-50 hours of cultural, place-based learning to at least 361 Native Hawaiian keiki in schools within Ewa. In these sessions, learners receive lessons in cultural practices like hana hei (string figures), oli, hula, ulana lauhala, kuku kapa, kalai ohe, kanu, ku’i kalo, kui lei, moolelo, kakaolelo, haku mele (poetry), paani makahiki and more.
- Ulu Ae will ensure that participants are able to build their community knowledge of history and culture, strengthen their literacy skills, increase their proficiency in cultural practices, and develop a strong sense of place and belonging.
- This project will also be addressing the community's needs for more cultural, place-based after school and intersession programs for youth residing in the Ewa moku. In a region where there are no Hawaiian immersion or charter schools, it is crucial to provide programs like these to give families the opportunity to send their children to safe cultural learning programs.

## Hui Mālama O Ke Kai Foundation

### PROJECT DESCRIPTION

The Papahana Kālai Papa Me Pōhaku Ku‘i ‘Ai project is a workshop series that teaches participants to carve their own board and stone for pounding poi. Through the series at least 100 Native Hawaiians will create their own board and stone, connect with their culture, learn traditional skills, and strengthen the bonds between ‘ohana and community.

### PROJECT INFORMATION

- Hui Mālama O Ke Kai (HMK) is an after-school youth development program for Native Hawaiian students and their families in Waimānalo. Community members created HMK through a grassroots effort in 1998. They were alarmed by the findings of a community assessment that revealed that 5th and 6th grade keiki in this coastal community not only did not have access to positive culturally-grounded extracurricular activities but many also lacked basic ocean safety skills.
- The target population for the Papahana Kālai Papa Me Pōhaku Ku‘i ‘Ai project is 5th-12th grade Native Hawaiian youth, their family members, and other Native Hawaiian families from the wider Waimānalo community and beyond. Children in Waimānalo are among those in the state with the greatest barriers to success. According to the most recent U.S. Census, 68.9% of the population of Waimānalo (9,932) identify themselves as Native Hawaiian or other Pacific Islander, establishing Waimānalo as having one of the highest ratios of Native Hawaiians on the island of O‘ahu. Cultural and historical conditions present this large population with multiple challenges in areas of academic achievement, economic/employment opportunity, socio-emotional development, and issues of health/well-being.
- The Papahana Kālai Papa Me Pōhaku Ku‘i Ai project will provide 14 training workshops per year and bring together Native Hawaiians (up to 100 individuals and/or a total of 40 families) to learn the traditional art and skill of creating their own board and stone to pound kalo and make poi for their families. This experience will connect families to each other, their culture, and will inspire many to pursue cultural knowledge and experiences in the future.

## **KUPA Friends of Ho'okena Beach Park**

### **PROJECT DESCRIPTION**

To perpetuate Hawaiian cultural practice of 'ōpelu (mackerel scad) fishing as handed down to fishers in Ho'okena and South Kona. The project will build on current OHA support to revitalize seasonal closures, train a new generation of 'ōpelu fishers, and increase demand for traditionally harvested 'ōpelu so these cultural practices continue.

### **PROJECT INFORMATION**

- KUPA Friends of Ho'okena Beach Park (KUPA) is a 501(c)3 non-profit organization established in 2006. KUPA was founded by native Hawaiians and the officers are all Native Hawaiians that reside in Ho'okena. The organization has an MOU with Hawai'i County to provide services for Ho'okena Beach Park such as maintenance and supervision of camping.
- KUPA has long worked to strengthen the sustainable management of marine resources and the local environment in Ho'okena and has worked over the years to encourage community members and visitors to apply pono (responsible) practices in terms of use of marine resources, sustainable fishing, and interaction with marine animals.
- This proposal will continue, solidify, and sustain activities that address the decline of the traditional Hawaiian cultural practice of sustainable 'ōpelu fishing and management. To revitalize the important cultural practices, fishers need both to actively practice traditional fishing and take actions to restore the population of this iconic fish. The population needs to be healthy enough that community members are able to sustainably catch sufficient numbers of fish over the long-term. This will help a younger generation to gain pride in the fact that native Hawaiians developed one of the world's most effective systems of sustainable resource management and reinforced it through strong cultural values. We have directly observed that development of culturally appropriate community and economic opportunities, such as revitalization of traditional Hawaiian 'ōpelu fishing, helps to improve the overall social situation for our Hawaiian community members. 24 training workshops will be held each year to increase the number of practitioners in traditional 'ōpelu fishing practices and sustainability measures as well as other community meetings and events to share knowledge and expertise.

## Hui Malama Ola Na ‘Ōiwi

### PROJECT DESCRIPTION

The purpose of Hui Mālama Ola Nā ‘Ōiwi is to uplift the health of the Hawaiian nation. Hui Malama's indigenous knowledge programming, in service of creating a deeper understanding & practice of cultural methods by Native Hawaiians for their health & wellness via Ho‘oponopono, Lā‘au Lapa‘au, Lomilomi & Healthy Hāpai, will increase.

**REASONS FOR RECOMMENDATION**

- Pu‘uhonua Society creates opportunities for Native Hawaiian and Hawai‘i-based artists and cultural practitioners to express themselves and engage with audiences. We support artists and makers who serve as translators/mediators/amplifiers of social justice issues in the community. A not-for-profit organization, Pu‘uhonua Society receives in-kind operating resources from its sister company Nā Mea Hawai‘i.
- Pu‘uhonua Society will perpetuate Hawaiian culture by supporting a network of makers, cultural artisans, and community-based creative enterprises, while creating access to Hawaiian cultural practitioners in a learning environment by growing and gathering, preparation, and, weaving.
- With this proposed project, we seek to promote a shift toward ethics of sourcing, production, and exchange that are grounded in environmental sustainability and affirming of the abundance already existing within our culture, relationships, and communities. Rather than providing a new solution, Keanahala: A Place for Hala will carry forward the ingenuity and wisdom of ancestral practices into contemporary opportunities for cultural education, craftsmanship, and meaningful exchange that bring benefits to economy, community, and environment. In year one, a minimum of 30 workshops are planned. In year two, a minimum of 50 workshops are planned.

### PROJECT INFORMATION

- Family Treatment Services (FTS), a program of The Salvation Army Hawaiian and Pacific Islands Division, is the only licensed and accredited residential substance abuse treatment program in Hawaii designed to meet the needs of pregnant and parenting women and their children.
- Over the past 36 years, FTS has served a predominantly Hawaiian clientele and has taken steps to address the issues that greatly impact this population while also addressing the common obstacles found for early recovering women.
- The residential program incorporates hula and Hawaiian cultural values into the curriculum. FTS actively participated in the work of Imi Ke Ola Mau, a coalition of providers working to expand culturally based treatment options for native Hawaiians. FTS developed a partnership with Kokua Kalihi Valley (2009) to allow women in FTS programs to regularly participate in 'aina based and other cultural activities at Ho‘oulu ‘Aina.
- Ola Kino Maika‘i 2.0 is a next step in the integration of Hawaiian cultural values and traditions into relapse prevention programming and overall health and wellness of our clients.

- Founded in 1975, ALU LIKE, Inc. is a statewide private non-profit, multi-service agency organized for educational and charitable purposes. In 1973, Myron (Pinky) Thompson, Alvin Shim, James Bacon, Yukio Naito, David Peters, and Winona Ellis Rubin began discussions on the formulation of a Hawaiian service organization that is now known as ALU LIKE, Inc. Officially incorporated and granted its IRS status in 1975, ALU LIKE, Inc. received its first grant from the Administration for Native Americans in 1976. In 2019, ALU LIKE, Inc. will enter its 44th year of services to the Hawaiian people.
- The island of Moloka‘i is reported to have the largest concentration of Native Hawaiians in the state. Hawaiian culture and rural lifestyle characterize the island’s community. The target population for the prevention service of this proposal to Native Hawaiian youth 9-17 and young adults 18-20.
- ALU LIKE has provided various services in the Moloka‘i community for over 25 years, so forming and maintaining partnerships with other community organizations through personal acquaintances of our staff has been a natural part of providing services on Moloka‘i.
- The Ho‘ala Hou program shall provide substance use prevention and positive behavior programs using the Postive Action/EBI curriculum, supplemented with Pono Life Skills curriculum (focused on Sense of Self, Place, and Community to Native Hawaiian youth in elementary, middle, high and charter schools, inclusive of after school activities; sports, cultural and/or commuity service outings.

**PROJECT INFORMATION**

- Since 1990, Malama has provided a comprehensive continuum of care to more than 2,000 substance-addicted Maui women and their children. Malama's mission is to provide caring, holistic substance abuse treatment to women and children so families can live safe, independent and healthy lives.
- Services shall address core issues of substance abuse, but also the underlying trauma caused by clients own experiences of poverty, child abuse and neglect, intimate partner violence and other forms of family violence. Healing trauma is at the center of successful recovery at Malama. Focus, cannot solely be on addiction-broader issues of stress, violence and co-dependency must be incorporated into treatment.
- The FTS primary goals are in two parts; 1) prevent and reduce the severity and disabling effects of alcohol/drug use, abuse and dependence for Native Hawaiian women (especially those who are pregnant and/or parenting) and their young children. 2) Enable Native Hawaiian mothers to fully participate in treatment activities without having to worry about finding childcare, while at the same time, addressing their children's physical, developmental, educational and emotional well-being and providing parenting training.

### PROJECT INFORMATION

- Ma Ka Hana Ka ‘Ike began in fall 2000 as a vocational training program for at-risk youth attending Hāna School. Our approach reestablishes our youth’s role as caretakers of their community while providing them with the skills needed for success.
- The project serves the small, rural community of Hāna, East Maui which is located two hours away from Maui’s urban centers. Sixty-eight percent of Hāna’s 1,235 residents are of Native Hawaiian ancestry. The challenges outlined above have resulted in the following issues in the home environment of Hāna’s kūpuna and caregivers: 1) overcrowding; 2) substandard or unsafe living conditions; 3) homes that are no longer accessible when a kūpuna experiences decreased mobility due to injury or illness. Due to our geographic isolation, it is difficult to find affordable fresh, organic produce and healthy foods. The health of Native Hawaiians is inextricably tied to their cultural identity as well as to the health of the ‘ohana and ‘āina. Social and cultural determinants of health include the preservation of cultural traditional and sacred places, strong indigenous identity, and participation in cultural practices and lifestyles (Native Hawaiian Task Force, 2017).
- This project will re-establish the symbiotic relationship between youth and kūpuna by 1) ensuring elders have safe and accessible home to include home safety assessments and home construction/modifications; 2) provide superior nutrition with home deliveries of local and traditional foods to include opportunities to engage in farm work days for kūpuna and caregivers; and 3) fostering physical activity and social engagement through meaningful ‘āina and culture-based activities to include opportunities for kūpuna and caregivers to ku‘i ‘ai.

- I Ola Lāhui (IOL) is a 501(c)(3) non-profit organization that has been in operation since 2007. IOL has an 11-year history of partnering with organizations across 6 islands in Hawai‘i, closing the gap between the needs of communities and access to behavioral health services.
- IOL’s mission is to provide culturally-minded, evidence-based behavioral health care that is responsive to the needs of medically underserved, Native Hawaiian and rural communities. IOL seeks to improve Native Hawaiian health disparities by partnering with clinics and agencies in our communities to serve alongside and within to meet identified Native Hawaiian health needs.
- IOL, in partnership with Lunalilo Home and the Waimānalo Community recognize the urgent unmet need for behavioral health and traditional food practices for the well-being of our kūpuna. The overall approach and methodology in the project will address the needs of kūpuna and caregivers in East Oahy by providing the services requested by communities and allowing their voices to drive the direction of support.
- The goals of the project shall be to provide kūpuna and caregivers resources and services for health care, services for overall well-being, activities to enhance day to day living for kūpuna and cultural nutrition and healthy lifestyles for kūpuna and caregivers.

- EPIC Foundation (EPIC) is a non-profit corporation, committed to improving educational outcomes for all learners. Established in 2004, EPIC is singular in its purpose, and that is to ensure that all children, youth and young adults have equal access to a quality education that opens doors to a purposeful future. EPIC Foundation has provided educational programming since its incorporation as a non-profit organization in 2004 to the present, totaling 14 years. Educational programs include mentoring, educational advocacy, out of school time programs, comprehensive individualized tutoring, and enrichment opportunities, including 'Ike 'Olelo, Robotics and coding, gymnastics, engineering, science, magic, art, and culinary.
- 'Imi 'Ike will effectively address the needs of students by: 1) Identifying student reading and math needs through a comprehensive and adaptive computerized test called Measures of Academic Progress (MAP) and then monitoring student progress through follow-up tests; 2) Monitoring student progress more frequently through informal tests imbedded into the curriculum and based on each student's targeted skills; 3) Considering other relevant needs; 4) Providing comprehensive educational programs; 5) Imbedding family engagement activities into the context of the Learning Centers through structured and planned communication with caregivers verbally and in writing, purposely outreaching to caregivers through telephone calls, impromptu conversations all delivered in a positive and validating manner; 6) Imbedding mentoring and role modeling into the context of tutoring sessions; 7) Monthly project staff meetings to discuss students' progress and concerns, and to address and monitor progress toward project goals.

**PROJECT INFORMATION**

- Founded in 1976 and incorporated in 1983, Ka'ala Farm, Inc grew out of a community vision firmly rooted in the culture, values and history of Wai'anae. It is a place where ancestral knowledge and Hawaiian traditions are carried forth to make people and communities stronger. Through more than four decades of work with school age children, families and other cultural and community organizations, Ka'ala Farm has gained significant experience in the management of educational, economic, cultural, historical and environmental resources.
- Academic underperformance of NHIS students, unfortunately is not unexpected. Research has shown that for decades, Native Hawaiian children in Hawai'i's public-school system perform poorly compared with their non-Hawaiian peers. Across the 255 public schools in Hawai'i, Native Hawaiian students are much more likely to attend struggling schools and much less likely to attend high performing schools.
- Despite the challenges described above, Native Hawaiian children possess significant social, cultural, and emotional strengths and there are considerable assets within the community that enable their resilience - including student ties to community, family, and culture; teacher commitments to children; and numerous community assets and resources. PLACES build on these strengths of youth and community to address low academic measures, strengthen the engagement between student and learning; to prepare our youth for a fulfilling future; and, to grow as assets and change agents within their communities.

**PROJECT INFORMATION**

- Ho'omana Hou School is located in the Moloka'i Youth Center in Kaunakakai town.
- Our organization founded the Ho'omana Hou School in 2004, It has operated as a full-time licensed private school since its founding and its graduates have gone on to attend 2- and 4-year colleges as well as vocational training. The island's sole public high school consistently ranks as a low-performing school, especially in math and reading. Hawaiian students on Moloka'i need curriculum that builds their academic skills in the context of their culture and their island.
- In traditional Hawaiian culture, pupils learned in a hands-on environment, building their skills by working side-by-side with their teacher. The proverb "Ma ka hana ka 'ike" (knowledge, 'ike, comes from doing the work, hana) is the cornerstone of Hawaiian educational philosophy.
- The approach used by Ho'omana Hou, described above, has proven effective in engaging disaffected youths who have failed to succeed in the traditional classroom. Almost all our students are eager to learn more about Hawaiian culture and the island where they live. Framing academic lessons in the context of their home and their heritage helps to instill an interest in learning, and it increases the self-confidence of students who begin to take pride in their heritage. This is especially effective with those whose families are unstable, neglectful or abusive. Youths from these kinds of homes often lack any positive reinforcement for their abilities, but building cultural competency builds self-respect and the desire to learn more for a better future.

- Boys & Girls Clubs of Maui, Inc., is a non-profit 501 (c)(3) organization that operates drop-in service facilities that provide a safe, supportive, non-judgmental, nurturing and supervised environment where youth ages 9 to 17 years old can be themselves, experience positive role models and learn the values and skills that promote success.
- Power Hour is a mandatory program, and homework must be completed before members can participate in any of the other programs available at each Clubhouse. This is great incentive for our members, and encourages them to do good work.
- Power Hour is not just about helping our young members with their homework; it’s about helping them succeed.
- Additionally, as an organization diverse in both membership and staffing, we strive to provide our members with an understanding and appreciation of their own culture, as well as the cultures of all other members. Oftentimes, conflict results among youth when they perceive someone as different from themselves. This can lead to bullying, fighting, and other negative outcomes. Without positive interventions at an early age, such as the ages of our members, this can lead to even more serious consequences that have a life-long impact.

- Founded in 1994, the Institute for Native Pacific Education and Culture (INPEACE) is a Native Hawaiian 501(c)3 providing culture-based educational programming. Operating in areas with high Native Hawaiian populations, they serve Native Hawaiian families living in marginalized communities that continue to struggle with low academic achievement rates and generational poverty.
- Ho'oulu Waiwai: 2-Generation Secure Families program will be housed at the INPEACE office located in Ma'ili.
- The target population is Native Hawaiian families living in West O'ahu, primarily on the Wai'anae Coast. Many on the Coast struggle with poverty, unemployment, and a general lack of economic security. The Coast continues to suffer from greater economic disadvantages, and some of the highest rates of poverty in the entire state.
- The goal of this program is to strengthen the economic base in West O'ahu, primarily on the Wai'anae Coast, through the establishment of small businesses for increased job opportunities, and increased college degree attainment for current or prospective teachers on the Coast.
- Services will include financial literacy training for all participants that lead to two vocational tracts: 1) business incubator for those seeking to start and retain a small business, and 2) college support for those seeking to become teachers in the Wai'anae community. Informational workshops will help participants get started, and 1-on-1 coaching support will help them attain their goals.

CNHA currently operates a loan fund, delivers capacity building services, fosters leadership development, has convened the Native Hawaiian Convention for 17 consecutive years, and has distributed over \$530,000 in charitable donations to other community-based organizations through its Hawaiian Way Fund.
- CNHA programs provide access to capital, financial education and individualized financial counseling services with a focus on low and moderate-income families.
- This program is designed to prevent Native Hawaiian households from falling further below the low-income threshold by helping participants identify potential career paths that meet the wage needs of a family of 4 to live above the Hawaii Survival Threshold on one income within 5 years.
- This program will also focus career development initiatives on middle-skill jobs that require education or training beyond the high school level but not requiring a bachelor’s degree.
- Program activities include assistance with completing high school equivalency and/or vocational training; assistance in attaining and maintaining middle-skills career paths that pay above living wage thresholds; and training programs (law enforcement, first responders, select construction trades and community health) to prepare for entrance exam, physical exam, and the interview process.

### PROJECT INFORMATION

- Hui Mālama i ke Ala ‘Ūlili (huiMAU) a community-based hui (organization) of ‘ohana from Hāmākua Hikina (East Hāmākua) on Hawai‘i Island, founded in 2011 and recognized as a 501(c)(3) charitable organization in 2015.
- Our mission is to re-establish the systems that sustain our community through place-based educational initiatives and ‘āina-centered practices that cultivate abundance, regenerate responsibilities, and promote collective health and well-being. In doing so, we are empowered to continue on the pathways and traditions of our kūpuna, and establish new pathways for present and future pono of our ‘āina.
- The Ho‘onohopapa Koholālele Project is a community-based ‘āina and aloha ‘āina restoration initiative, led by huiMAU, as ‘Ōiwi (Native Hawaiian) stewards with long-established kuleana in the care of ‘āina and wahi kupuna (ancestral sites) at Koholālele.
- ‘Āina Restoration work will occur in two phases over the grant period, and will occur through two primary work venues—regular huiMAU staff and volunteer hours, and monthly/bi-monthly community workdays. Invasive species removal and crops of value to Native Hawaiians will be planted. The project will plant 400 crops on 7 acres within the project period. ‘Ōiwi Research will enhance our stewardship and will allow us to prepare the first phase Restoration Plan for Manini Heiau as well as conduct 12 community training workshops.

**Kako‘o ‘Oiwī**

**PROJECT DESCRIPTION**

The purpose of this project is to restore and effectively manage ecologically and geographically linked kipuka within He‘eia uli, increasing the capacity and resilience of ecological and food-producing systems in our ahupua‘a for the benefit of Hawaiians and other community members on O‘ahu.

**PROJECT INFORMATION**

- Established in 2006, Kāko‘o ‘Oiwī (“Lead Applicant”) is a Hawai‘i non-profit organization that operates in three distinct but interrelated program areas: environmental and natural resources management, sustainable agriculture, and Hawaiian culture-based education and awareness building. In 2010, our organization secured a 38-year lease from the Hawaii Community Development Authority (HCDA) for a 405-acre property in the wetlands of He‘eia, O‘ahu where our organization has been restoring wetland and estuarine habitat and lo ‘i kalo (wetland taro fields) and developing high-value diversified agricultural crops for local markets.
- The purpose of this project is to restore and effectively manage ecologically and geographically linked kipuka within He‘eia uli, increasing the capacity and resilience of ecological and food-producing systems in our ahupua‘a for the benefit of Hawaiians and other community members on O‘ahu.
- This project will provide restoration of cultural resources and food sources for the lahui. The 6000 huli will be planted and the kalo created, shared or sold will go to our families for the improvement of our lahui. The activities of restoring and maintaining 8 acres of land will lead the perpetuation of Hawaiian farming and pule. The loi will also provide habitat for our native flora and fauna. The laau that is planted will be used as medicines to directly improve health of our lahui in addition it will also be used to perpetuate our hula and laau practices.

**The Kohala Center, Inc.**

**PROJECT DESCRIPTION**

This project will reestablish native forest and stabilize two riparian restoration corridors in the ahupua'a of Kawaihae. Our watershed restoration efforts with DHHL's Kailapa community will increase access to fresh water, provide habitat for native flora and fauna species and build Hawaiian stewardship capacity as aloha 'āina practitioners.

**PROJECT INFORMATION**

- The Kohala Center is a 501(c)(3) organization founded in 2000 with a mission to respectfully engage the island of Hawai'i as a model of and for the world. By turning ancestral knowledge and research into action, we work for thriving ecosystems of improved ecological, cultural, economic, and social well-being. Our guiding vision is a state of pono.
- The Kohala Mountain hosts a cloud forest that supports a unique ecosystem with over 155 native species of vertebrates, crustaceans, mollusks, and plants. Yet over the past 200 years the Kohala landscape has been reshaped to serve communal and societal demands. Lush forested area both wet and dryland were replaced by hundreds of acres of pasture for ranching, residential development and/or monocrop agriculture. This resulted in native forest and coastline devastation. Many of the endemic forest species found on the mountain have become rare and/or endangered. It is estimated that half of Hawai'i's forests have been lost to deforestation with the remainder threatened by non-native plants and animals.
- The life of the Kohala forest and coast depends on continued and consistent commitment to land and water environments. Therefore the Kohala Ma Uka to Ma Kai Stewardship Project follows a simple recipe for forest restoration and stewardship succession: 1) remove invasive species and plant more native species ma uka; 2) monitor the impact ma kai; and 3) recruit and mentor next generation stewards and conservationists.

**PROJECT INFORMATION**

- Founded in 1990, the Edith Kanaka‘ole Foundation (EKF) has successfully managed grants from federal, state, county and private sources. EKF is a well-known Hawaiian cultural organization, supporting cultural education initiatives through cultural programming, workshops, research, land management, curriculum development and scholarships.
- This project will address the abuse of our coastal lands by engaging the community through loko i‘a workdays at Haleolono fishpond. Additionally, we will facilitate educational access to the sites where we will explain the importance of loko i‘a and coastal management. We will conduct research on the wahi pana and current status of these places through water quality study and observation to monitor the health of the resource and share this information with the public. We will work together with the County of Hawai‘i to develop a sustainable coastal management plan for the area as a template that could be used for other coastline areas. We will document our research findings and community events and engagement via video shorts to be shared with the public through social media.
- Throughout our decades of work in coastal management we found that behavioral change occurs through education. We hope that by creating a space for our community to learn about our ocean resource through hands on community workdays, informative video shorts and sound research and data gathering that change can begin to take root.

**Waipa Foundation**

**PROJECT DESCRIPTION**

The project purpose is to revisit and update Waipā's 20 year Master Site Plan and Development Program (2004) which covered 60-120 acres within Waipa ahupua`a. To revisit and/or identify facility and infrastructure elements and priorities based on emerging needs and opportunities and environmental factors affecting Waipā's landscape and resources.

**PROJECT INFORMATION**

- The 1,600 acre ahupua`a of Waipā, located on the north shore of Kaua'i, is owned by the Kamehameha Schools and is managed by the Waipā Foundation, a 501c3 nonprofit founded in 1994 that evolved from the community's first efforts in the early 1980's to save the valley from resort and golf course development. The Foundation currently holds a lease through 2050 from the landowner, Kamehameha Schools, one of the strongest supporters of the Foundation and its work.
- Waipā Foundation's mission is to restore Waipā's vibrant natural systems and resources and inspire healthy, thriving communities connected to their resources.
- Waipā serves three target populations which are both distinct and overlapping. The communities of Kaua`i's north shore or moku of Halele`a-which surround Waipā-from Kilauea to Ke`e are considered our target geographic community, with a special focus on 900 Native Hawaiians, families with multigenerational ties to the area, and at-risk `ohana and keiki.
- This planning project will serve these communities, identifying elements such as housing, retreat spaces, campsites and facilities for arts and economic development for the Halele`a community, and learning and event facilities and more for our target community of practice. During the term of this project over 50 Hawaiians will participate, with thousands of Hawaiians benefitting in the 20-year planning span of this project.
