I. CALL TO ORDER

Chair Waihe'e calls the Committee on Beneficiary Advocacy and Empowerment meeting for Wednesday, January 30, 2019 to order at **10:02 a.m.**

Chair Waihe'e notes for the record that **PRESENT** are:

MEMBERS			AT CALL TO ORDER (10:00 a.m.)	TIME ARRIVED
CHAIR	JOHN	WAIHE'E, IV	PRESENT	
VICE-CHAIR	KALEIHIKINA	AKAKA	PRESENT	
TRUSTEE	LEI	AHU ISA	PRESENT	
TRUSTEE	KELI'I	AKINA	PRESENT	
TRUSTEE	BRENDON KALEI'ĀINA	LEE	PRESENT	
TRUSTEE	CARMEN HULU	LINDSEY	PRESENT	
TRUSTEE	ROBERT	LINDSEY	PRESENT	
TRUSTEE	DAN	AHUNA		Arrived at 11:21 a.m.
TRUSTEE	COLETTE	MACHADO		Arrived at 12:13 p.m.

At the Call to Order, **SEVEN (7) Trustees are PRESENT**, thereby constituting a quorum.

Chair Waihe'e states that Item V. A. will be taken out of order after III. A and before IV. A.

Chair Waihe'e would like the record to show that some materials were received more recently than 72 hours ago, and that deadline per practice has been duly waived.

II. PUBLIC TESTIMONY

Chair Waihe'e calls on **Scott Stensrud, Kawena Kekuewa and Makamae Namahoe** with the *Hawai'i Public Health Institute* addressed the Committee regarding SB1009 and HB276 (RELATING TO FLAVORED TOBACCO PRODUCTS).

Makamae Namahoe: Aloha nui kākou and thank you for your time. As we all know cigarettes have been around for over 100 years while e-cigarettes have only been around for about 15 years. Since they've been introduced on the market, the e-cigarette industry has been able to capitalize on the lack of government regulation and have made their way into the hands of our youth. There has been a huge disconnect between cigarettes and e-cigarettes and we would like to share that information with you all today.

Generally speaking, everyone knows how dangerous smoking cigarettes are, but when it comes to e-cigarettes, the reaction is quite different. People are still under the impression that they are harmless and safe, but recent research and scientific data have shown that they are anything but safe. We have over 60 years of research and scientific data to show how dangerous cigarettes are. There are over 7,000 chemicals found in cigarette smoke, some of them are more harmful than others. 70 chemicals in cigarettes have confirmed carcinogenic activity, meaning they are chemicals known to cause cancer and serious disease to humans. Some of the same carcinogenic chemicals found in cigarettes like acetaldehyde, benzene, and formaldehyde have now also been found in e-cigarettes.

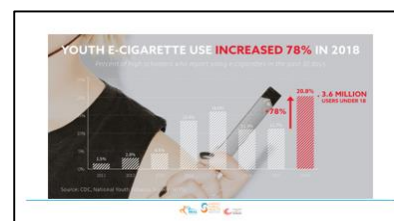

Electronic smoking devices are considered tobacco products by the FDA as they contain nicotine. Initially when e-cigarettes were first introduced, they were intended to be used as a tool to help adults who were addicted to smoking cigarettes quit. So the first generation of e-cigarettes looked and felt just like a cigarette. This first generation was disposable, non-refillable nor rechargeable. The second generation evolved a bit in design and purpose. This generation introduced the box and tech mods, these devices were much larger and heavier and were really designed for the user to customize their usage by allowing refilling and recharging the e-liquid and device. These types of devices were sold as a replacement for cigarettes.

The current generation looks nothing like a cigarette. These devices are small, sleek and stealthy. They use cartridges or pods which can come pre-filled or allow the user to refill them. They have engineered the nicotine e-liquid a step further with these devices which use nicotine salts and typically come in very high nicotine strengths. These are the devices that are very popular with kids today, and are designed to get people hooked on nicotine quickly and allow for easy access in any environment.

This has been a very brief overview of how these products have evolved over time. I will now turn it over to Kawena to provide a closer look at how these devices are being used by more and more kids and examine aspects of why these products are so attractive to kids.

Kawena Kekuewa: Aloha everyone, I am UH Maui student and a member of the Coalition for a Tobacco-Free Hawai'i's Youth Council. We are a group of high school and college students that are working to create the first tobacco-free generation. While the rate of using combustible cigarettes is at an all-time low, the problem we face is that the use of e-cigarettes has sky rocketed, increasing 78% from 2017 to 2018 alone.

In 2017 and in Hawai'i, 16% of Middle School students reported having used e-cigarettes in the past 30 days, that's more than 3 times the national average.

For High School students in Hawai'i the rate is 26%, more than double the comparative national data. Among the priority populations identified by the State Department of Health in Hawai'i where smoking rates are still above the national average, 37% of Native Hawaiian High School students and 51% of LGBTQ High School students reported having used e-cigarettes in the past 30 days. For High School students in Hawai'i who identify as Transgendered the rate goes up to 53%. Tobacco companies have a proven sales strategy when it comes to planting seeds for future customers. These executives have gone on-record to state that "the base of their business is the high school student".

They know that 90% of smokers start before the age of 18, and that 95% of smokers start before the age of 21. Candy-flavored tobacco products can lead to a lifelong addiction to nicotine. Tobacco companies know that flavors attract kids. Flavors mask the harsh taste of tobacco, making it easier for kids to get hooked on nicotine. They also know that flavor means a whole lot more. They exploit our local foods and culture, how else can you explain flavors like Molokai Sweet Bread, Auntie Li Hing or Hawaiian Breeze? While they claim in words that they are not marketing to kids their actions speak loudly and carry a different message. Here are just a couple of examples where the marketing of e-liquid for e-cigarettes looks exactly the same as candy marketed to young children. Can you tell which is candy and which is e-juice?

Unfortunately, neither can our youth, there are hundreds of other examples of this practice. In case you are wondering the Juice Box on the left is actually e-liquid. It's not just in e-juice, it's in small cigars too. As well as other products... Menthol cigarettes for example have helped to addict generations of African Americans, Filipinos, and Native Hawaiians, they are by far the most popular type of cigarettes with these populations.

78% of Native Hawaiians and Pacific Islanders smokers, smoke menthol cigarettes. Menthol makes it easier to start and harder to quit. To make things even worse, as Native Hawaiians we are more likely to die from lung cancer than other groups. The medical community doesn't know why that this is the case; but again, the tobacco companies know this is the case and keep targeting us. 81% of kids who have ever tried e-cigarettes start with a flavored product. Studies indicate that 30% of youth that vape will try a combustible cigarette within 60 days. 65% of kids who ever tried cigars started with a flavored product.

The solution is simple, join the more than 200 other localities and municipalities that have banned flavored tobacco products. End the cycle that hooks kids, say no to candy flavored tobacco in Hawai'i. We are requesting that you vote to endorse our call to the Hawai'i legislature to end the sale of flavored tobacco products in Hawai'i and support HB 276 and SB1009. HB 276 is up for a hearing in the House Health Committee tomorrow and we want to share with them that OHA stands in support of the Youth Council's call to end the sale of flavored tobacco in Hawai'i.

We will also be holding a press event Monday Feb. 4th at 12:15 p.m. where we will be unveiling an awareness display *Candy Flavored Tobacco Hooks Kids* on the front lawn of the Capitol. We hope some of you can join us. Thank you for allowing us to present today.

Chair Waihe'e: Thank you, that was a very impressive testimony.

Trustee Ahu Isa: They advertise a lot on the radio, because I just heard this morning "Try JUUL."

Scott Stensrud: On the mainland they've taken over 76% of the e-cigarette market. They've just gotten into a big campaign here, short of 6 months ago. They were not even widely available here in Hawai'i although they were on the mainland. Within the last 6 months they are now everywhere, we're concerned about that because the rates in the mainland spiked after JUUL started being widely marketed. We're afraid that our already high rates will get even higher with the easy access to JUUL.

Trustee Ahu Isa: Thank you.

Trustee Hulu Lindsey: Is there an age limit for the purchasing of these products?

Scott Stensrud: Currently, the law is 21 to purchase.

Trustee Hulu Lindsey: So it's treated like tobacco?

Scott Stensrud: It's treated as a tobacco product, and that changed a couple of years ago we were the first state to change it to 21 for all products including e-cigarettes.

Chair Waihe'e: Are there any further questions?

Chair Waihe'e calls Ke'alaula Lalawai to address the committee regarding Bail Reform, Mental Health, and the PLT bill.

Ke'alaula Lalawai: Aloha mai, I am speaking on behalf of the Wai'anae Hawaiian Studies group. We as a group have visited OHA twice with the Community Engagement and Public Policy programs and recognize how important civic engagement and advocacy is for youth and our lāhui. While at OHA we were introduced to three specific bills which I would like to speak upon; Bail Reform, Mental Health and the PLT. Also through OHA, we learned how to track bills and submit testimony.

The Bail Reform bill allows everyone the opportunity to continue everyday lives without involving money. The Mental Health bill paves a way for not only Western Medicine, but also Traditional Medicines to help us treat our people. The PLT bill holds everyone accountable for the money that they are making off of public lands, which is money that can benefit the Hawaiian people. All of these bills can help the Native Hawaiian Community on the Wai'anae Coast. If we all work together to support these legislative bills then we can create change in our community around us. Mahalo for taking the time to listen and also to the OHA staff who helped prepare us for this journey.

Chair Waihe'e: Thank you Ke'alaula. Members do you have any questions?

Trustee Lee: I have a comment; with regards to the PLT bill that you folks are tracking, you should also be aware that because you attend Wai'anae High School, 20% of the PLT funds are supposed to go to the DOE as well, so you guys should track that as well and question the Chairs of those committees in the Senate and the House on where those monies are going to the DOE and how they're being expended because you're entitled to that money as well.

Chair Waihe'e: Are there any further questions? Thank you.

III. APPROVAL OF MINUTES

A. October 24, 2018

Trustee Brendon Kalei'āina Lee moves to approve the minutes of October 24, 2018.

Trustee Carmen Hulu Lindsey seconds the motion.

Chair Waihe'e asks if there is any discussion. There is none.

Chair Waihe'e asks if anyone votes NO or ABSTAINS. There are no replies.

V. UNFINISHED BUSINESS

A. 2019 OHA Legislative Package Updates – Matrix 2†**

Chair Waihe'e turns it over to Ka Pou Nui Sylvia Hussey.

Ka Pou Nui Hussey calls on Public Policy Manager Jocelyn Doane to present, as well as Wayne Tanaka, Lead Advocate.

Public Policy Manager Doane: Aloha Trustees, so I just wanted to Mahalo Chair and Trustees for the opportunity to update you on the OHA Package first. I wanted to go over a few background things before I start and introduce our amazing staff. We've been working really hard to make sure that we monitor not just our package but also all the measures that may have an impact on our community. I am Jocelyn, the Public Policy Manager, this is Wayne Tanaka he is our Lead Advocate, Kamaile Maldonado does most of our criminal justice advocacy, Monica Morris deals mostly with our Education and DHHL advocacy, Sabrina Gramberg was an intern and has now returned to us as an employee, and Anuheia Patoc is the one who puts together the matrices. I also wanted to recognize Kealoha Fox and her intern Sam who are helping us track Health and Climate Change bills this year. Trustee Lee has been gracious enough to allow Zuri Aki to help us with some tracking as well. So that's our team, we are all excited to be here to help track all these measures with you. We're also very

excited to have the students from Wai'anae High School with us today, Kamaile did a great job of holding a workshop for them last week – they are articulate and engaged and it makes it very exciting for us.

I would like to go over the Legislative Calendar to go over some of the upcoming deadlines. So many of our bills either have a triple or double referral so in order to move and survive upcoming deadlines the triple referral bills need to be heard by February 7th and the double referral bills need to be moved out of their current committee by February 15th. The bill introduction deadline was just last week Thursday January 24th. We finally assigned all of the bills on Sunday and downloaded this matrix on Monday so today and next week Wednesday you will get the bulk of the new bills. Then of course there are Resolutions that will be trickling in, because the Resolution deadline is at a later date. We're going to do the best that we can today, because we're understaffed – if you know anyone looking for a job please send them my way.

As for the package, none of our bills have received hearings yet. We're not alarmed. I spoke to the Hawaiian Affairs Chair last week and we have plans to schedule the Budget bill next week probably, and then we need to confer with the other committees in the Senate because some of them are double referred. So we will be working on that very shortly to make sure that our bills move.

We had a really good meeting with the Hawaiian Affairs Chair in the House, so we need to follow up with him after today when he schedules another Public Land Trust Bill which we're excited about to be heard and to move our other bills along too. In terms of the OHA package moving along, we are on target.

IV. NEW BUSINESS

A. 2019 OHA Legislative Positioning – Matrix 1†**

Chair Waihe'e turns it over to Ka Pou Nui Sylvia Hussey.

Ka Pou Nui Hussey turns it over to Public Policy Manager Jocelyn Doane to present, as well as Wayne Tanaka, Lead Advocate.

Public Policy Manager Doane: So what we generally discuss on this large matrix are each OHA-named bill. The bills we recommend a position of OPPOSE on, highly controversial or high-profile bills and any bills that may not be obviously in-line with positions that the Board has taken before. So we don't go over every single bill, but if the Trustees have any questions on any specific bills, we're happy to try and address them.

We're going to start with three changes that need to be made to the matrix.

Page 32, Item 187 - SB1 Relating to Housing. This is the ALOHA Homes bill. You may have heard a lot about the different housing measures that will be moving in the session this year as it is one of the Governor's priorities. So this is a measure that was introduced by Senator Chang. Currently on the matrix, we listed a position of COMMENT but we would actually like to change that recommendation to OPPOSE and it took us quite some time to arrive to that decision. We really love and appreciate the idea that there is movement in the legislature to actually develop units that we so sorely need to meet the housing crisis. I do have a meeting with Senator Chang today, but let me share a little about why we're recommending OPPOSE. Basically SB1 and SB400 seek to develop substantial housing to meet the affordable housing crisis; I haven't seen any other movement in the legislature to actually produce massive amounts of housing to meet the crisis, so we're super excited about that. The idea is to build this on public lands which we don't oppose by itself, but of course with that comes a lot of considerations. The reason why they want to build it on public lands is because you take away the cost of the land and that's one of the reduced variables when you're developing housing.

The other really good thing about the bill is that it specifically ensures compliance with Chapter 343 our environmental review process and historic preservation laws. One of the measures opens the door to transfer of units to the OHA and DHHL. Some of the things that we're a little concerned about or don't totally understand yet is its impact on State land use laws. The way they define urban regional development districts is anywhere within half-a-mile of a transit-oriented development (TOD) zone which Honolulu has, or for counties without a TOD zone, half-a-mile from any Public transit station, which could be all over the place. So that's concerning because we don't want to erode the integrity of our agricultural and conservation districts. It's not clear that that is the intent of the bill, but some changes would need to be made to account for our concerns regarding that. The way that they're planning to roll this out is that the units would be for 99-year leasehold sales. It would be sold affordable (80% Area Median Income (AMI), which is low), but they wouldn't income-restrict, which means that wealthy people could come in and buy cheap units. I think there's a reason for that so we have to continue to discuss that more with the Senator.

There are really minimal resident restrictions and I think what's happening is the Senator is trying to survive constitutional scrutiny. There are reasons why we don't have a lot of residence restrictions on housing now. It's something that I've been personally talking about with my friends that work over at the County. We've talked about actually doing a study to figure out how do we survive this U.S. Constitutional provisions, privileges, and immunities clause; it's complicated, but that's the rationale there I think. One of the ways they're planning to pay for this is through commercial projects which would be on State and Public lands which won't have to comply with Chapter 171; which requires evaluation for most processes for business leases, competitive bidding, and fair-market value. I understand why he's doing it, but there are some things we need to consider. If they're going to lease out stolen kingdom lands for minimal amount of money, then that's something we need to be concerned about. I don't think that's the intention, but decades from now if this moves it will survive us and the leadership behind it.

In addition to that the provision that requires if any actual sales are going to be done, get approval from the legislature, and inform OHA in advance. As you know we have a really, strong policy opposing the sale of ceded lands so that provision is not accounted for either. All this activity; the selling of the homes, the resales and then the commercial projects are all going to be funneled into one special fund that they're obviously trying to use only for this purpose and so it really puts into question OHA's pro-rata share and whether or not we would have access to that. The trustees chose not to include affordable housing receipts in the 35 million figure that we took, that we introduced last year, and that will be heard today. So I think there are real considerations for the trustees to think about if there are income restrictions, if it's targeted towards our beneficiaries, what Public Land Trust receipts we want to advocate for, but in this case even the commercial projects, they're seeming to want to make sure those receipts are not subject to our pro-rata share too. We figured all of this out late, last night after the matrices were already distributed, thus I'm asking your consideration to change our position on SB1 from COMMENT to OPPOSE.

Trustee Lee: Are you asking for an official position?

Public Policy Manager Doane: Yes, so you will vote on this at the end, but that is the recommendation.

Trustee Lee: So we'll take them all up at one time?

Public Policy Manager Doane: Right, Team Melissa and Crayn will have the motion all written out for us at the end.

Trustee Hulu Lindsey: I'm a little troubled, the position that we've been taking all these years is that we Oppose even leasehold on State lands because of the conversion possibility like Kamehameha Schools experienced. Eventually they're going to ask for these lease properties to be sold. *So what happens to our land?* The reason I bring this up is there's an active project in Maui right now and for Senior Citizens they really want to be able to purchase the lease that they've had all these years. I've been holding on to our position, because of course they've come to me and this is the same thing except broader.

Public Policy Manager Doane: Right, because there is no process in place in the statute to comply with HRS 171-64.7 which is the provision that OHA advocated for, so that any actual fee sales have to be approved by 2/3 of both houses and have to give us substantial notice during which time we would probably evaluate whether or not to file a lawsuit. Because that is not in there, we are recommending to Oppose this.

Trustee Hulu Lindsey: I see.

Public Policy Manager Doane: We do not have a policy on opposing leaseholds. You make a really good point about the conversion and then you build a coalition of folks who later down the line advocate for purchasing. In the last few years that I've been working with HHFDC, they will not sell a leasehold without conferring with us. We do have exceptions to our policy to oppose the sale of ceded lands and those are for the housing projects that started before we filed our lawsuit back in the day. If the changes are made that we are asking for, I think we'll still have to find a balance regarding trying to figure out how to meet this insane crisis that many of our people are being affected by and trying to protect the trust.

Trustee Akina: I agree that it is disappointing that SB1 is filled with so many deal-breakers for OHA, because on the surface it accomplishes a great deal for all residents and for Native Hawaiians in Hawai'i. What do you think we can do either to rehabilitate this bill or to see that other bills in the future will contain protections for our PLT position?

Public Policy Manager Doane: I had concerns about a bunch of different provisions and then once I saw the 171 exemption I knew we had to Oppose this. So some of critical things that we're particularly concerned about I think can be addressed. For example, we opposed the airport corporation bill for the last couple years only because of the 171 provisions. Like I mentioned earlier, I have a meeting with Senator Chang today and this bill has a hearing tomorrow, so it is moving quickly, but I know that there are a lot of House members who also have a lot of questions. We will be open to dialogue with the Senators and we'll be clear about what the deal-breakers are as well as the other things that we have concerns about. I also wanted to point out that SB400 is not on the matrix. SB1 and SB400 are basically the same bills but different models; one of them would create an entirely new corporation or authority and one would be housed within HHFDC. In the version that would be its own separate entity, OHA is named to be one of the members on the Board, so I wanted to point that out. Again, both contain problematic provisions, so we recommend adding SB400 to the matrix and OPPOSE it, similar to SB1.

I have one more change on page 52, Item 297 - SB889 the position on the matrix is Support with Amendments however we are recommending to change the position to MONITOR. This would require the Director of Health to convene a parity working group and it's relating to compliance with insurance regulations. I don't think we have the capacity to make sure we know what's going on sufficiently enough to weigh-in.

Those are all of the changes, now I will go over all the bills that name OHA.

Page 10, Item 58 - HB402, the companion SB1363 is basically the same bill. This is the measure being heard this morning in the Hawaiian Affairs Committee. It's basically identical to the bill we had in our OHA package last year. It would increase OHA's annual Public Land Trust (PLT) pro-rata share from 15.1 to 35 million dollars and it would transfer \$139 million instead of \$119 million because the year has passed and is back due. Obviously we SUPPORT this as it is in line with our trustees' positions and our advocacy. We are super excited that there are members in the House and Senate including the Hawaiian caucus that support keeping this alive, and are trying to get additional support from their colleagues for it. We're at the capitol now testifying on an administrative position to SUPPORT, but with the motion today, it would be clear that the Board also supports this.

Trustee Lee: I know there is a Senate bill that matches this as well. Has anybody introduced any other legislation for a share to go to any of the other beneficiaries of the PLT, not just OHA? We aren't the only ones entitled to PLT money.

Public Policy Manager Doane: No other purpose in the Admissions Act has resulted in specific allocations or agencies to hold and distribute those funds, so while the Admissions Act specifically names five purposes, there is no mechanism to specifically get those purposes 20%. I think the thing we have to all keep in mind is that we're supposed to get 20% of gross and that was a long fought negotiated position. Of course currently, we don't get 20% of anything. All the agencies that generate revenue which includes the Department of Education, the Department of Agriculture, and some of the Housing Departments which are purposes named to the Admissions Act, had to give 20% of their revenue to each other. So there's been a whole bunch of cross-transferring going on. Also, nowhere does it say 20%; that was a Constitutional then a statutory negotiation, that's how the 20% came up. All of those funds, I would argue are being used for the benefit of the general public, which is one of the two named beneficiaries and the Department of Education's budget, as you know, is massive. Based on our calculations, we think they're probably getting more than 20% of State funds. Whether or not they come directly from Trust funds is definitely questionable.

Page 21, Item 121 – HB831; there are numerous OHA Board term limit bills – I was originally going to recommend a position of Monitor from the Staff and then defer to the Trustees on what the position should be. However, after looking at HB831 and its companion SB730, as well as SB727 which is an omnibus bill that we'll go over. I noticed that this bill would establish term limits to 3 terms or 12 years maximum and it doesn't have consecutive language in there, but it does have language about grandfathering in which could be interpreted to grandfathering-in sitting trustees, but I'm not sure the language actually does that. So I'm recommending a position of COMMENT to point that out and try to get the legislators to clarify what their intentions are as it relates to sitting trustees.

Trustee Hulu Lindsey: In the last election that was brought up quite frequently and I agreed with them so I would be in Support of something like this.

Trustee Lee: Is there any legislation to set term limits for the legislators?

Public Policy Manager Doane: Not that I've seen so far.

Trustee Hulu Lindsey: Who introduced this bill?

Public Policy Manager Doane: Calvin Say introduced this one and Ihara introduced one, but to be clear these were beneficiary requested bills. So if there are no objections I will be submitting comments consistent with what we discussed, because some of these measures would impact the sitting trustees, so I will ask for clarification.

Senior Public Policy Advocate Tanaka: Page 22, Item 125 – HB848; we are in SUPPORT of this measure relating to Protection of Streams. It was actually developed by a bunch of legal experts including Native Hawaiian Legal Corporation and Earth Justice to ensure that the Board of Land and Natural Resources bureau upholds the Public Trust when it makes authorizations that allow for the use of water. To clarify, it's normally the Water Commission and not the BLNR that makes decisions on water use and allocation, but in some instances such as in East Maui, the Board will issue watershed land leases or easements or licenses that do allow for the large-scale diversion of the streams and use of water. This measure would apply to any Board disposition that results in the use of water and it would ensure that any disposition lasts for no longer than 15 years which makes sense during the era climate change and we're not really sure what's going to happen in the next few decades in terms of water security. It would ensure that the Board has information on how much water is in each stream that's being diverted and how much water is actually being diverted from the streams. It would also ensure that no more than 50% of the stream's flow is diverted at any one time and that there is no impact to cultural or ecological aesthetic values of streams. It would also require that the Board charge no less than 90% of the avoided costs,

which is how much the applicant would have to pay to get the water from another source. In other words, ensuring a fair return from the use of these Public Trust resources. It specifically identifies the responsibility of the Board to ensure that OHA receives its pro-rata share of the Public Land Trust. So we recommend SUPPORT of this measure.

Trustee Hulu Lindsey: *How does this affect the permit years?* As you well know DLNR extended the permit for the East Maui irrigation, allowing them to continue taking the amount of water that they have been taking. So I just wondered how this bill would affect that authority versus the Water Commission.

Senior Public Policy Advocate Tanaka: This would actually specifically address when the Board makes decisions like that. I think it's particularly targeted to the water lease which is what A&B has been trying to get for a number of years. The statute currently allows them to get up to 65 years and this bill would limit the lease term that they would get to 15 years and include other conditions. So this is targeted at better upholding the Public Trust when the Board makes those kinds of decisions.

Public Policy Manager Doane: As it relates to the revocable permits, there's a bunch of measures that we're going to go over today that speak to that specific point. This is targeted at the longer-term dispositions which is where A&B is supposed to have been trying to get to. So we know that's coming and we know we don't want them to have a 65-year water lease. As you may know there are some legislators who are trying to allow the holdover authorization to be extended and we'll talk more about what we're planning to do about that when we get to that one bill; but great question trustee.

Senior Public Policy Advocate Tanaka: Page 24, Item 137 – HB1024; this has a companion SB1250. We recommend SUPPORT of this measure as it's very similar to measures that we've supported in the past. It would authorize DLNR to charge user fees for access to Marine Life Conservation Districts and in practice this would only be practically applicable to like Hanauma Bay and Molokini. These fees would be dedicated to a special fund that specifically would be for management of community-based fishing management areas and marine life conservation districts. Knowing what the visitor count is for Hanauma Bay alone it could easily result in several million dollars being dedicated solely to the management of these areas and the protection of natural and cultural marine resources.

Public Policy Manager Doane: Page 26, Item 153 – HB1113; this also has a companion measure SB731. This is one of three bills that have collective bargaining language in it. Unfortunately, all of them do basically exactly what the collective bargaining bills did that we opposed back in 2017. So rather than empowering our employees to unionize if they so choose, it automatically puts our staff into certain State Collective Bargaining Units which as we've discussed over and over again would attempt to bind this board to negotiations and personnel cost increases where we only have 1 of 13 votes. This is completely inconsistent with our trustees' exclusive authority to determine how we spend our trust funds. As I understand it was not the intent of the drafters to reintroduce the bill that we fought over previously but to introduce a bill that would empower our staff to unionize. We would be having a really different conversation in that instance, but I feel strongly that we should OPPOSE these measures so as not to really dilute the authority of the Board. As you know about 15 million of our 35 million dollar core operating budget is personnel cost; that's a substantial amount of discretion to be trying to take away from the trustees. These bills also have Chapter 76 Civil Service provisions in them which would eliminate the at-will employment concept that we have. We're recommending a position of OPPOSE.

Page 27, Item 154 – HB1114; this is one of two public funding bills. As you probably know, currently OHA trustee candidates may choose to limit their campaign expenditures and become eligible for public funds as are other State-elected officials. The cap however for trustee candidates is \$1,500 whereas the other races are really high. This bill would enable candidates to be eligible for 10% of the campaign expenditure limits and sets a maximum at \$1.40 times the amount of registered voters in the last election, so this would be similar to the Governor and Lieutenant Governor races.

Trustee Lee: I think this comes out of CNHA's package and the purpose of it was currently if you're running as a candidate for OHA your limitation for public funds is the same as if you're running for a House seat which is a small district, whereas we are running a Statewide race.

Public Policy Manager Doane: Right, so we're recommending from the OHA Administration perspective a position of MONITOR, but of course we defer to the trustees if you feel differently.

Trustee Lee: I would like to recommend that we change from Monitor to SUPPORT on this measure.

Chair Waihe'e: Ok, members does anybody oppose changing our position on HB1114 from Monitor to SUPPORT?

Trustee Keli'i Akina: I haven't read the bill myself, it sets the limit of funds available to OHA candidates to be equal to that of the Governor or Lieutenant Governor races?

Public Policy Manager Doane: Yes, basically.

Trustee Hulu Lindsey: I think that's fair, this is a Statewide race.

Public Policy Manager Doane: Ok, so we'll have that change added into the motion.

Page 27, Item 156 – HB1116; Senate companion SB729. This is randomizing individual ballots. This is a concept that's being considered for all races in a separate measure. Our recommendation is to MONITOR.

Page 45, Item 267 – SB681; this is the other election OHA Trustee Candidate term limit bill. This one is for two consecutive term limits and this doesn't have any of that grandfathering language in it, so again we're recommending COMMENT to say that the impact of this could affect sitting trustees and we are asking for clarification.

Trustee Hulu Lindsey: I think we should Oppose this measure, because I think two terms is unrealistic. How can any trustee accomplish anything in two terms?

Chair Waihe'e: Members, do you guys want to Oppose this or leave it as Comment?

Trustee Akina: I do agree with Trustee Lindsey; however, my sense is that this bill will die. So I'm wondering if we want the headline to be *OHA Trustees Oppose Term limits*?

Chair Waihe'e: I see that point.

Trustee Robert Lindsey: Jocelyn is this also a beneficiary-driven bill?

Public Policy Manager Doane: I'm not sure, this is Senator Ihara's bill and I'm not sure where it's coming from. Ka Pounui noted that this is for two consecutive terms so it would allow for a trustee to come back after one 4-year term off. Again though this doesn't have the grandfathering language in it, and I'm not convinced that the drafters did that on purpose either.

Trustee Lee: I would agree with Trustee Akina to just leave it as Comment.

Chair Waihe'e: Ok, Trustee Hulu Lindsey would you like to take this measure separately to Oppose?

Trustee Hulu Lindsey: No, I'm ok with leaving it as Comment.

Trustee Lee: If it does move along we can change our position later right?

Chair Waihe'e: Yes.

Public Policy Manager Doane: Yes, we will be here every week and give the trustees the opportunity to change their position.

Page 48, Item 279 – SB727; this is the omnibus bill I mentioned; it has the term limits, the collective bargaining, the public funding and the randomized ballots. We're recommending a position of OPPOSE because of the collective bargaining section.

Page 60, Item 334 – SB1055; this is just one of those bills that a statute already applies to OHA and its not specifically about OHA. This is about additional ethics disclosures for funds. We're recommending a position of MONITOR because it's not specifically about OHA, but we are named so that's why I'm mentioning it here.

Senior Public Policy Advocate Tanaka: Page 67, Item 371 – SB1424; to provide some context, as you probably know since 2010 there have been a number of studies and reports demonstrating that our Criminal Justice System has a disproportional impact on our beneficiaries. Pretty much every step of the process; from arrest rates to conviction rates, unequitable sentencing and so forth. We've been investing and advocating substantially in task forces and policy making initiatives to kind of reduce the burden of our criminal justice system on Native Hawaiians. In particular, for the last two years we've been very active in playing key roles in two task forces; the HCR134 pretrial task force and HCR85 prison reform task force and the exciting thing is that there are a number of recommendations from the task forces that are now being introduced as bills this session. This measure would create a Commission to carry forward the work of these various criminal justice task forces and also oversee the policies and procedures of the Public Safety division and the Corrections System. This Commission would include a representative from OHA. We are recommending SUPPORT and asking for an amendment to the language that includes a representative just to better reflect our administrative structure.

Public Policy Manager Doane: Page 68, Item 374 – SB1446; this is similar to a measure that we saw a couple years ago, it would require that the OHA Administrator receive approval from the Board for hiring the CFO, HR Director, and our Corporation Counsel and it would place the BOT in a direct supervisory role over these three positions. As we said in the past, the way that the bill is drafted is potentially unconstitutional. The constitution specifically gives the Board power to exercise control through the Administrator. This is also inconsistent with Board internal policies which includes the Executive Board Policy Manual giving the Administrator authority to hire and fire other employees, so consistent with our past position we are recommending to OPPOSE this measure.

That is the last of this round's OHA named bills. We'll now go through any bills we OPPOSE along with high profile bills and bills that are different from positions that we've taken in the past.

Senior Public Policy Advocate Tanaka: Page 2, Item 8 - HB26; we're recommending a position of SUPPORT on this measure. What it would we do is hold hosting platforms like Air BnB accountable with misdemeanor liability and a fine if they advertise illegal transient vacation units. We've been concerned for a few years now about the proliferation of illegal transient vacation units. They take thousands of housing units off of the rental market, in particular the single-family units Native Hawaiians need. They also drive-up housing costs and foster speculation by foreign investors and folks not from the islands.

Public Policy Manager Doane: I just want to clarify that this is not a change from our previous positions. However, I know it can be confusing and I wanted to go over it for the benefit of our new trustees.

Trustee Akina: I understand that we are not opposing transient accommodations, but what we are doing with these very technical bills is supporting making something illegal a misdemeanor or a crime which is necessary legislation.

Public Policy Manager Doane: Page 6, Item 34 – HB246; this is a Charter School Facilities bill. We're very excited to see this measure again. It would allocate 11.2 million dollars in general funds for each fiscal year for charter school facilities. As we know charter school facilities are the number one funding disparity. For the sake of our trustees, we generally take positions of Support on appropriation bills unless we have substantially been providing funding in those areas and as you know we provide over 1.5 million dollars to Charter Schools every year. The other really good thing that this bill does that we've advocated for previously and Monica actually drafted the language for and it made it back is that it would amend the statute to clarify that these funds may be used for rent, for those charter schools that don't have their own facilities. We are recommending SUPPORT on this measure.

Page 6, Item 36 – HB276; This is one of the three of four bills that are related to flavored tobacco. This bill would prohibit the sale of flavored tobacco. We had a lively conversation about whether or not OHA should be taking a position on prohibiting tobacco in Hawaii and basically we see in our youth high rates of use of e-cigarettes, particularly females. We also see high rates of lung cancer in our beneficiaries and so we offer to you a newly recommended position to SUPPORT this measure for your consideration. There are three bills on this matrix that would ban the sale of flavored tobacco and there are two bills that would ban the sale within a particular distance of schools. This measure is the ban, period. The preamble of this measure specifically has Native Hawaiian data in it.

Trustee Akina: Like you, I was moved by the students who spoke today, but I would like to make a recommendation that we Comment with a strong endorsement of the spirit of their concern. Their concern of course is that young people should not be using these substances that will harm them. I'm a little concerned about the bill itself. While I totally agree with keeping these substances away from young people the bill totally outlaws a product. It says the purpose of this Act is to prohibit the sale or distribution of all flavored tobacco products including products with menthol in the State of Hawai'i, my first concern is that that's an awful lot of power to give our Government and there would be some adverse economic concerns. My second concern is young people are smart and today we had some very intelligent young ones speak to us, but I've also seen their colleagues debate the other side of the story in which debaters have pointed out correctly that during the prohibition era the data shows that alcohol use, bootleg and otherwise, increased amongst youth. Also, we now have data that shows that the restrictions on opiates is a cause for the increased use of opiates.

Trustee Lee: Point of Clarification Mr. Chair.

Chair Waihe'e: Trustee Lee, please State your Point of Clarification.

Trustee Lee: We have no data in front of us or from a third-party verifying what Trustee Akina is talking about, so I don't think it's appropriate to be brought unless he has that data and credibility from it to bring before us. Otherwise it's just an opinion and is Out of Order.

Trustee Akina: Mr. Chair may I comment?

Chair Waihe'e: Trustee Akina.

Trustee Akina: Thank you, I'm not trying to argue the point here.

Trustee Lee: Point of Order Mr. Chair, he is arguing his point. He's trying to get the Board to change their recommendation and he's using his opinion to do it. We do not have any facts or figures in front of us to justify what he's telling us, and that is unduly weighing-in on this debate.

Chair Waihe'e: Trustee Lee, your Point of Order is true; there has not been any facts or findings presented to the Committee. Members we will not consider the information that Trustee Akina stated as fact; Trustee Akina you may continue to state your opinion on your position of this bill.

Trustee Akina: Thank you, all I was trying to do was demonstrate that I have observed young people argue on both sides of the issue. Going back to my point, I think that it would be good for us to Comment only, and as our comment, we should definitely endorse the spirit of opposing the use of these substances by young people. Thank you.

Trustee Robert Lindsey: I support Administration's recommendation on this particular bill for two reasons. Number one, it directly aligns with our mission to better the conditions for our people; and two it addresses one of our basic strategic priorities of health.

Trustee Lee: I kāko'o what Trustee Lindsey has stated as well.

Chair Waihe'e: Ok, so we'll vote on this bill separately then.

Ka Pou Nui Hussey: Chair may we have Kealoha provide some additional insight?

Chair Waihe'e: Yes.

Ka Pou Kāko'o Nui Fox: Mahalo Chair, I just wanted to provide some additional facts and information. OHA has been studying this issue for almost 10 years with our Strategic Plan and this is a part of the Strategic Results that we're actively measuring through our Research Division. What the Youth Council had shared earlier with us, should be really considered. 200 Organizations are supporting these bills and they're asking for OHA to join the Community of 200 organizations that are showing that this is a major concern.

The University of Hawai'i at West O'ahu has done an alarming study which shows that there are more licenses for tobacco sales in Hawaiian and low-income communities; which means that their targeting our children. There are no bans right now on how close these retailers can be to schools. We're seeing one-in-three Native Hawaiian 'opio girls are using e-cigarettes in high school and one in four 'opio girls are using e-cigarettes in middle school. We're now starting to reach a crisis. We know that the lung and bronchial cancer rates in our people are unchanged since 1975. We know the lung and bronchial cancer are the number one cancer mortality among our kāne and the second cancer mortality rate among our wahine behind breast cancer. So this doesn't just talk about tobacco and smoking-use, this is actually talking about the repercussions of years of tobacco and nicotine use among our people which our causing them to die at an earlier rate than our ethnic counterparts. We are dying at a younger rate than Chinese, Japanese, Filipinos, and Caucasians in Hawai'i. Much of it does have to do to these behavioral factors and the risks that come with these lifestyle choices which is listed very clearly in OHA's Strategic Plan. So I just want to show that we have fully vetted all of this data to provide to you folks and we've published it in our Kānehō'ālani & Haumea Reports.

Trustee Hulu Lindsey: I support Administration's recommendations and comments made by Trustee Robert Lindsey.

Trustee Akina: Thank you, I appreciate the Administration's sharing of data and I do want to clarify that I take no exception with that data, I was not challenging the data nor the findings that tobacco products are harmful to young people and perhaps inordinately harmful to Native Hawaiians. So please understand I'm not challenging that whatsoever. I'm just raising the question if the prescription in this bill is the right prescription. Is total prohibition that would prevent an adult from buying the product and using it moderately; or criminalizing that behavior, is that a policy position we want to take? That's why I'm recommending that we Comment upon it and totally endorse the movement but be cautious about the actual Governmental mechanism being put into place. That's the spirit of what I have to say. So with that said, unless other trustees would like to join me in Comment

and like to suggest that we have a bifurcation, in which case I will vote *kanalua*. I will continue to look at the issue and the data.

Trustee Ahuna: I will be supporting the Board's decision, but there are so many things we have to factor in and I'm a teacher. What people don't know is that by doing this vaping, it's a Chapter 19 offense in the DOE. So it's a 90-day suspension and that's our kids that are not attending school. We need to stay in line with our mission. Thank you, I missed the students who presented earlier, but I see the material they left for us, and "Smoking is not a Hawaiian Tradition" that's who we support, our beneficiaries.

Senior Public Policy Advocate Tanaka: Page 7, Item 39 – HB 294; this measure takes a look at our bail system. It's not a specific recommendation from the HCR 134 pre-trial task force but it does address one of the task force's major concerns, which is the disproportionate impact of cash bail on poor defendants. Essentially how our cash bail system works now is bail is determined based on this categorical schedule and it doesn't really consider things like danger to the community, flight risks, or re-offenders. It really just depends on how much money one can pay. So in effect the wealthy have the ability to post bail and go free and folks who are unable to post bail stay in jail and that may result in a number of negative repercussions; loss of job, housing, and the inability to care for your family. Essentially our cash bail system acts as a punishment for poor defendants who haven't even been convicted of anything yet. This measure would try to reduce the disparity of cash bail, by saying first if someone's in jail they should be released of recognizance or unconditioned release, but if the prosecution can show that someone might be a danger to the community, flight risk, or reoffend then the court should look at other forms of release; like conditioned or supervised releases; other ways of release without requiring cash. We recommend SUPPORT of this measure.

Page 7, Item 40 – HB 321; this measure would prohibit line and net fishing in Waikīkī between Kaimana Beach and the Natatorium; we recommend COMMENT on this measure. We appreciate the intent to better steward and manage our resources, but we ask that they provide an accommodation for Traditional and Customary practices that might be associated with the area, particularly since these kinds of places' practices probably have less of an impact than other types of fishing that could still occur under the measure like spearfishing and so forth.

Trustee Lee: So they're proposing that this replaces the current every other year ban that we have now to making it permanent?

Senior Public Policy Advocate Tanaka: It would be a permanent ban on line and net fishing only, so you could still spearfish. I'm not sure if it would supersede the current ban.

Trustee Lee: Right now there's a ban on all fishing every other year. So this would negate that and would it make it permanent? So every other year you could spearfish in this area, but you could never throw net and line fish.

Senior Public Policy Advocate Tanaka: That would be my take on it. So we would like to COMMENT on it.

Page 11, Item 62 – HB 424; this comes from the Native Hawaiian Justice Task Force recommendation; it would ask the Department of Public Safety to phase out the use of private prisons over the next 15 years and to bring our prisoners back from the mainland. Statistics show that particularly for the mainland prisoners, there are a large disproportionate amount of Native Hawaiians and being housed on the mainland. It has made rehabilitation more challenging and creates hardship on the families back home, so we recommend SUPPORT of this measure.

Public Policy Manager Doane: Page 15, Item 92 – HB591; this would prohibit DLNR from establishing a water shed project without prior approval of the Game Management Advisory Commission (GMAC). OHA appreciates that subsistence hunting is an important traditional and customary practice and an important part of the livelihood

of many people in our community particularly in rural communities; however fresh, clean, flowing water is also a critical part of other traditional and customary practices that we have. When we look at those two issues in combination there's definitely a balance that needs to take place. So requiring the GMAC, that doesn't require any particular expertise on it to approve, we think is a bad call. There are actually some practitioners on the GMAC currently that I know, but it's not a requirement of the members, so we're recommending OPPOSE on this measure.

Senior Public Policy Advocate Tanaka: Page 16, Item 94 – HB596; this measure would require the Board of Land and Natural Resources (BLNR) to analyze applications for dispositions of lands, land leases within 90 days. We are recommending COMMENT on this to defer concerns the department may have regarding the staff capacity to turn around these applications in such a short amount of time, especially when there may be a large number of factors that should be considered, including Environmental and Traditional & Customary Impacts.

Page 17, Item 98 – HB629; this would clarify the process where very sick or dying inmates can petition for medical release from prison. This is consistent with HCR85 Task Force's general recommendation to look for ways to reduce the mass incarceration and overcrowding in our prison systems. These prisoners who are ill present very little risk or harm to the Community and it would allow resources that would be spent housing in prisons to be focused more on rehabilitation for prisoners. We are recommending SUPPORT of this measure.

Page 17, Item 99 – HB634; this has a companion SB737. This would create a five-year pilot project for restorative justice circles for defendants accused of a crime. Currently there's a program in Waiawa where prisoners actually engage in these "justice circles" with their victims and it has had a 100% success rate for the 90 cases they've applied it to. The Native Hawaiian Justice Task Force supported these circles as they're consistent with Ho'oponopono and indigenous Conflict-Resolution approaches. This measure would set up a pilot program for defendants before they're even convicted to engage with their victims in a healing process and hopefully find a resolution for both sides without having to involve our Criminal Justice System, so we recommend SUPPORT.

Page 18, Item 103 – HB670; this would set up a two-year pilot project for a Try Think program in our prisons. This is actually a long running that the Council for the Humanities has been sponsoring. It takes prisoners and asks them to comment or reflect on current events and social or political respective. It has shown to be helpful with rehabilitation and reentry and it gets prisoners to think about the larger society and their place in the community and how they can participate in this unit, once they're released; so we're also recommending SUPPORT on this measure.

Public Policy Manager Doane: Page 19, Item 110 – HB769; we're recommending a position of MONITOR but I thought it was important to bring up, in case Trustee Ahuna has some information that we might not be aware of. Basically far downstream from the Blue Hole diversion site which is controversial and that OHA has been involved in; there's a cooperative that manages an irrigation system and many of those cooperative member's lease land from the Department of Agriculture. So this is a transfer of the authority of the system from the private cooperative to the Department of Agriculture. There's no reason for us to be concerned about it, but I wanted to bring it up just in case.

Page 19, Item 112 - HB780; there's a Senate version (SB195) of this that just moved yesterday. There are two bills that have been introduced in the Senate and one in the House that would amend HRS113 which currently determines that English versions of Laws are binding if there's discrepancies between the Hawaiian and English versions. This bill would require that if the draft of the Law is originally drafted in Hawaiian (and this bill is drafted in Hawaiian) that the Hawaiian version will be binding, so it's kind of cool giving legal teeth to 'Ōlelo Hawai'i laws. Our recommendation is SUPPORT WITH AMENDMENTS.

Page 23, Item 136 - HB996; this is related to a 4-million-dollar appropriation for Pre-K in Public Charter Schools. Back in 2014 when the DOE applied for Federal funds for Pre-K classrooms, we wrote a letter in Support of that and awesomely the State actually did receive Federal funds and they opened in 12 of the Public Charter Schools

and eight of those schools were Hawaiian-focused. So this is a measure that we previously supported a version of and so it's an appropriation and we recommend SUPPORT because we contribute substantially to the Charter Schools. I think there's a concern that the Federal funds will not be renewed or they won't have access to the funds moving forward so this is an attempt to secure funding for Pre-K in Charter Schools.

Senior Public Policy Advocate Tanaka: Page 24, Item 140 - HB1034; we're recommending COMMENT on this measure. It would allow enforcement officers to conduct admission inspections of bags or coolers of anyone they reasonably suspect of taking natural resources, it's a much broader version of what's been called "Cooler Inspection bills" which seek to address the challenges the DOCARE game wardens face when they encounter someone who they believe has been violating the law. This bill is extremely broad so we would like to Comment to suggest narrowing the scope of the search authority to only very highly regulated areas.

Trustee Lee: I also want to make sure that in our comments that we push the Native Hawaiian Gathering Rights and that it shouldn't be the burden upon the fishermen to prove their right at the time of inspection.

Senior Public Policy Advocate Tanaka: Yes, we have been in discussion with the Native Hawaiian Legal Corporation about incorporating that kind of language.

Public Policy Manager Doane: Page 25, Item 144 - HB1067; this bill would not allow construction on the Mauna Kea Summit. We're recommending a position of MONITOR. Our Board has a neutral position on TMT itself, but as you know we have a very strong position on appropriate management, and we are pursuing seeking appropriate management in other avenues. So consistent with those positions we're going to MONITOR this measure.

Senior Public Policy Advocate Tanaka: Page 28, Item 160 - HB1123; we are recommending a position of OPPOSE on this. It would prohibit the DLNR from passing any regulation regarding fishing without a stock assessment of every species that might be affected.

Page 28, Item 161 - HB1131; this measure has to do with the Kāne'ohe Bay Regional Council (KBRC) which OHA has a representative on. The Council is housed in the DLNR, but the statute specifically says that DLNR can't provide administrative support to the KBRC; that's confusing and challenging. This measure is proposed by beneficiaries in the area and would clarify that DLNR is able to provide support to KBRC and it would also require the Council to meet quarterly rather than annually, so we're recommending SUPPORT.

Page 30, Item 174 - HB1271; this would establish a Sentencing Reform Commission. This is one of the major recommendations that came out of the HCR 85 Task Force which identified inequitable sentencing as a major concern. So this would look at how sentences are imposed on convicted defendants and try to reduce the disparities that we're seeing. We are recommending SUPPORT WITH AMENDMENTS. Since OHA is a member we would ask that the language reflect our administrative structure.

Page 30, Item 175 - HB1289; there are a number of measures related to this SB1421, SB1422, and SB1423 where we recommend SUPPORT. These are recommendations from the HCR 134 Criminal Pretrial Task Force. They would include: eliminating cash bail for low level offenders, expanding diversion programs, making pretrial reports more efficient, making bail hearings more-timely, and asking for more accurate data collection. OHA has been a major participant of the task force. We've contributed many recommendations that we're excited to see that have then been proposed as legislation.

Public Policy Manager Doane: Page 30, Item 177 – HB1326, Senate Companion SB1116; this would permanently extend provisions of Act 126 related to water revocable permits which would allow for A&B's revocable permits to be continued in perpetuity. As many of you know, A&B has been dewatering East Maui streams for over 100 years. They stopped sugar production years ago and were told to do an EIS nearly 20 years ago. After that court decision, BLNR started mysteriously issuing holdovers, it took an investigation to

figure out how they were being done. Three years ago a new lawsuit was brought forward and the court told them the holdovers are tantum onto a lease. In a legislative fix they authorized BLNR to do exactly what the Judge had said not to do, so they fixed the statute so that they could do it. This particular version would delete the sunset and allow them to do it in perpetuity, so we obviously strongly OPPOSE that. They need to do an environmental assessment and they need to seek a longer-term lease and pay a fair market value for the water that they're taking.

The good news is that in the last year, 27 of the over 100 streams in East Maui have been granted restoration by the Water Commission. The kalo streams in particular are receiving full restoration and some of the other streams have minimum flow standards that are higher than they used to be. I bring that up because there may be a version down the line that we may choose to change our recommendation on. As it stands now, there are no required conditions in this measure about how much they can take, what percentage of the streams they can take, and they're paying a minimal amount for it. So we're recommending OPPOSE.

Page 44, Item 261 - SB608; right now prisons abuse administrative segregation which allows them to put prisoners in solitary confinement for numerous days for any reason, including overcrowding; and as you know, most of them are overcrowded. So we have beneficiaries who have been left in solitary confinement for years. So consistent with recommendations of the HCR 85 Task Force to reduce overuse of this tool we're recommending a position of SUPPORT. We know that there are numerous inmate suicides and almost all of them are in administrative segregation at the time.

Page 46, Item 271 - SB691; this bill would require two hours of annual in-service training in Suicide Prevention for teachers, principals, and school counselors. From the conversations at our task force and reports that we've issued, we're seeing alarming rates of mental health issues in our youth and higher rates of suicide attempts or ideation. We are recommending SUPPORT WITH AMENDMENTS and our amendments would be to note Native Hawaiian data in the preamble and require that culturally grounded programming be used. Also, require that training outcomes be in-place to help the teachers identify at-risk students.

Senior Public Policy Advocate Tanaka: Page 47, Item 275 - SB713, there's also an almost identical measure SB986. They're also essentially identical to a measure we supported last year the only difference is SB713 has appropriations; so we recommend COMMENT rather than Support on that particular measure. This is an omnibus transient / vacation rental enforcement bill. It would provide for a one-time tax amnesty for transient vacation rental operators who haven't been paying their taxes. It would also allow brokers and hosting platforms like Airbnb to act as tax collection agents; but with that it would prohibit these brokers and hosting platforms from doing business with illegal operators, provide substantial fines for violations, and allow counties to discourage profits from illegal rental units.

Public Policy Manager Doane: Page 51, Item 290 - SB829; this is the two-year sunset extension for the water revocable permit bill we just talked about a minute ago. Again, we're recommending a position of OPPOSE until we see some conditions in there. If amendments are made, then we will bring back a revised position to the trustees for reconsideration.

Senior Public Policy Advocate Tanaka: Page 53, Item 303 - SB916; we are recommending SUPPORT for this measure, it would impose requirements on BLNR disposition of Public Lands and ensure that the Public Trust is upheld. When leasing public lands to private entities the Board would have to consider alternative leases of the land, alternative options for the applicant, what are the comparable rents that would be charged for the use of these lands, and the financial benefits the private entities are realizing for these public resources. It would also require that the Board not dispose of land in a way that would adversely impact trails and access to public areas; it would also prohibit them from issuing leases to applicants who have a history of violations of DLNR laws and breaching agreements.

Page 53, Item 304 - SB918; this would limit the arrogate leased terms of Public Lands to 35 years, rather than 65 years. It would still allow for lessees to obtain financing for capital improvements and so forth; we are recommending SUPPORT.

Public Policy Manager Doane: Page 53, Item 305 - SB919; this is almost identical to a bill we supported last year. We are recommending to SUPPORT because it would add an at-large seat to the Board of Regents for a member to have traditional and customary expertise. It also amends the composition of the Board generally and it would change the number of Regents from 15 to seven members, and shorten the length of their terms from five to three years, which we will not comment on.

Page 55, Item 313 - SB934; it would prohibit landfills, transfer stations, open dumps or other waste or disposal facilities on conservation lands. Conservation lands are supposed to be some of our most culturally and environmentally significant lands. Apparently there is a waste facility in Miloli'i that is being overused not only by folks in that Community. This is Senator Kahele's bill and it would clarify that landfills are not appropriate and that in the case that conservation land is the only option in a community there's a process for it, we are recommending SUPPPORT.

The last two bills I wanted to point out for you are bills that may need to also be bifurcated, Item 327 – SB1016 and Item 348 – SB1247 are also tobacco related. SB1016 is slightly less aggressive than the complete ban, it would ban permitting businesses and sales of flavored tobacco a certain distance from schools, we recommend SUPPORT for that.

Chair Waihe'e: Trustee Akina do you support SB1016?

Trustee Akina: I believe that SB1016 is far better worded than SB1009, because SB1009 would ban the sale of such tobacco flavored products even to adults and SB1016 is targeting the problem saying we can't have those sales in the area of our schools where young people congregate. I think that logic makes a lot of sense, therefore I would support that.

Public Policy Manager Doane: Page 63, Item 348 – SB1247; this is also a total ban but there are fines in here for violating the ban; so we're recommending SUPPORT WITH AMENDMENTS. We're suggesting changes to the preamble and to the fines so that if the violation is happening near a school then the fines would be increased. So I imagine that this will need to be bifurcated.

Trustee Akina: Yes please.

Public Policy Manager Doane: Everett, KP, Sterling, Chair and Vice-Chair were at the Water Land hearing today so we've asked Everett to give an update.

Corporation Counsel Everett Ohta: We did attend the PLT bill hearing this morning at the Water, Land and Hawaiian Affairs Committee of the House. They did pass out the measure from their committee and made an amendment to the bill at the table. They blanked out the amounts that were provided for in the bill which is a common practice within substance matter committees. They also removed the provisions for the negotiating committee to revisit that amount every six years and providing for an audit that would take place in lieu of the reporting that happens annually under Act 178. It had one of the referrals struck (Judiciary) so rather than being a triple referral it now only has a double referral, passing Water, Land and Hawaiian Affairs and now going to Finance. Mahalo to the BOT Chair and KP's testimony today as well as numerous other members of the committee that helped support the committee's action. Thank you.

Public Policy Manager Doane: That's it for us, unless any trustees have questions on any bills we did not go over.

Trustee Lee: Just a quick question on Item 162, page 28 – HB1132; just curious as to the recommendation of MONITOR versus Oppose?

Public Policy Manager Doane: I think this actually applies to the Counties, I would prefer to take some time to look at the bill completely so that I can respond accurately.

Trustee Lee: I'm fine with that I just wanted to bring it to the team's attention.

Public Policy Manager Doane: Thank you.
