Current Issues Being Monitored by OHA

Army Training Land Retention at Three O'ahu Locations

The Army is launching studies for a draft environmental impact statement to retain state lands that are leased for training purposes in three areas. Historically, there have been consistent concerns regarding military use of Native Hawaiian Crown and Government Lands, also known as the "ceded lands" of the Public Land Trust, and the inability to restore these lands due to, among other reasons, the presence of unexploded ordinances strewn across the land.

Honolulu City Council Tax Changes

In response to profound increases in property valuations within Honolulu County, Honolulu City Council members have submitted

a few bills in 2023 to address resident's increased property tax liability furthering the prevention of homeownership affordability for Native Hawaiians. Housing costs have been cited as one of the main drivers of the Native Hawaiian population migration to the continent.

Red Hill Defueling Operations

A draft environmental assessment was put out for public comment on June 2023 by the Joint Task Force-Red Hill and Defense Logistics Agency for the defueling of the Red Hill Bulk Fuel Storage Facility needed to protect human health and safety, and local water supplies from further contamination. There is a desire to have the fuel removed as quickly (and safely) as possible as well as general support for the proposed defueling action covered in the DEA.

Native Hawaiian Population in District #48

Number may be an overcount due to being combined with other Pacific Islanders

There are **9,754** Native Hawaiian and Other Pacific Islanders (who report NHOPI alone or in combination with one or more races) in the district. This is nearly **36.6%** of the total 26,673 estimated population according to the U.S. Census Bureau, 2022 American Community Survey 5-Year Estimates, DP05 Selected Demographic Characteristics.
